This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

Sensitivity	105±3dB	Receive Range	10 Meter
Driver	40MM	Frequency Range	20HZ-20KHz
Speaker material	NsFeB	Max support	32G
Charge time	≥1 hours	Battery Capacity	500mAh
Temperature	15°C to 35°C	Charge port	USB

Q&A

Q: Does the Mic work while wired?
A: Yes. You need to plug in the 3.5mm audio cable.
In order to ensure better sound reception, you can call at the microphone

Q: Can the Bluetooth headphones be paired with multiple devices?
A: It is recommended that you do not connect two devices at the same time, which may cause Bluetooth interruption or channel error; If another device is not needed, it is recommended to cancel Bluetooth pairing directly

Q: How to use FM mode?
A: Long press the M key to enter the radio mode. Continue to press the middle key to search for the radio signal. The radio mode can only sound after searching for the radio signal.

Q: What if the Headphones is defective OR it just doesn't meet your expectation?
A: We admit that the headphones might be defective on rare occasions. If that happens, please contact us, and we will give you a satisfactory reply within 24 hours.
