**Power on/off**  
To power on the earphones simply remove the earphones from the charging case, earphones will automatically turn on if it is charged. To power off the earphones put the earphones back in charging case and closed the case.

**Pair with Bluetooth**  
When you open the case, after automatically power on, the earphones automatically connect to each other, and with "pairing" prompt tone, the LED indicator flashes blue.

**Note:** The earphones must be connected to the device within 3 minutes, not the earphones will go to power saving sleep mode. To activate the pairing mode again, simply put the earphones back into the charging case and wait a few seconds and follow the above procedure again.

**Best fit & best sound**  
The right fit ear tips must feel comfortable and the earphone must not be moved from the position when walking, running or doing any sport activity.

Follow the images and the chart below to learn how to wear the earphones in right manner. Make sure you insert the earphones with the ears directing towards your ear canal so that the earphones gently may fit comfortably and feel secure in your ears. Not wearing the earphones in right manner will affect the connectivity signal of the earphone, sound output and the microphone sound input.

Turn on the Bluetooth on your device, go to Bluetooth menu, search for A1, select to pair and connect. You will hear "Connected" sound when pairing is complete.

**Note:** The earphones with master-slave switching function.

A blue light will indicate the earphone is charging. When completely charged, this light will turn off.

**Basic Specifications of Charging Case**  
Size: 25.6\*25.5\*44.1(mm)  
Weight: 66g  
Charging Port: Micro USB  
Charging case (Full) provide power to earphone: Up to 8 times  
Charging time: Up to 2.5hrs  
Input Voltage: DC5V  
Charging current: 1000mA ± 10%  
Output Voltage: DC5V

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if used incorrectly, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
- Reorient or relocate the receiving antenna.  
- Increase the separation between the equipment and receiver.  
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
Consult the dealer or an experienced radio/TV technician for help.

Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference,  
(2) This device must accept any interference received, including interference that may cause undesired operation.

**Battery Alert**  
When the battery charging level is low and only 3 minutes of playtime is left, you will hear a warning voice message "Battery low". The message is repeated after every 30 seconds.

**Earphone status lights**  
Charging: Steady blue light  
Low charge: Light off  
Pairing: Blinking on

**Earphones Speaker Specifications**  
Speaker specification / mode: Ø9mm  
Impedance: 16Ω TYP  
Frequency(Hz): 20Hz ~ 20KHz  
Voltage and current ( max ) 3 V(DC), and product's original charging cable. If the output voltage and current exceeds the product's requirement, the product may be damaged, and this will cause severe damage to the product, and the product warranty will be invalid.

**Safety Warning**  
Please disconnect the USB cable after charging. Product should not be charging while the user is operating the equipment. Please use the charger or adaptor within the specified voltage and current ( max ) 3 V(DC), and product's original charging cable. If the output voltage and current exceeds the product's requirement, the product may be damaged, and this will cause severe damage to the product, and the product warranty will be invalid.

**Safety instructions for use**  
Avoid listening to music at loud volume levels for prolonged periods of time as this may cause permanent hearing damage. Keep the earphones away from heat in unsafe conditions including while operating vehicle, cycling, crossing a street or near fire.  
**Note:** If you are watching video while using your earphones, your audio may be slightly out of syncopation with your device.

**FAQ**  
**Q: What should I do if there only one earphone working, left or right earphone playing different sound?**  
A: Try to put both earbuds back into the charging case, then remove them and repeat the steps.  
**Q: Do I need to re-pair each time I turn it on?**  
A: No, after first pairing, A1 earphones will automatically power on and connect with each other then reconnect with your device right after you remove them from the charging case.  
**Q: What should I do if the earphone does not automatically connect to the device?**  
A: Delete "A1" from the Bluetooth device list of your smart phone or other devices then follow the pairing guide for re-pairing.  
**Q: What if the connection is unstable or there is no sound in the left earphone?**  
A: Try adjusting the angle of wearing the earphone or put the earphones back in the charging box and remove it out again.  
**Q: Can A1 earphone be paired with only one device?**  
A: Yes.  
**Q: How do I know if the earphone is charging in the charging case?**  
A: If blue led indicator is flashing of the charging case, A1 earphone is charging.  
**Q: Can I charge the earphone when I charge the charging case?**  
A: Yes.  
**Q: What should I do if the charging case does not work?**  
A: Insure the battery USB charging cable or change the charging cable for a while before try again, if the charging case is still unable to charge, please contact customer service.  
**Q: What if the earphone touch button does not work?**  
A: Right because the touch surface of the earphone is isolated with water or oily, try wiping the surface of the earphone button and the surface of the finger and try again.
