

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Radiation Emission Test Setup (Below 30MHz)	 A photograph showing a radiation emission test setup for frequencies below 30 MHz. A yellow, rectangular test chamber is positioned on a circular turntable. The chamber is surrounded by a metal frame. The background consists of a wall made of white, square-shaped absorbers arranged in a grid pattern. The floor is a light-colored, polished surface with yellow and black striped safety markings.
Radiation Emission Test Setup (30MHz to 1GHz)	 A photograph showing a radiation emission test setup for frequencies from 30 MHz to 1 GHz. A yellow, rectangular test chamber is positioned on a circular turntable. In the foreground, there is a metal frame with several vertical rods. The background consists of a wall made of white, square-shaped absorbers arranged in a grid pattern. The floor is a light-colored, polished surface with yellow and black striped safety markings.

**Radiation Emission Test
Setup (1GHz to 18GHz)**
