

Differences Declaration

To whom concern,

We company HANSHOW TECHNOLOGY CO.,LTD. hereby declares: The product models HS_C09989 are identical in the same PCB layout, interior structure and electrical circuits with the model HS_C09959 which tested in Global Unit Technology Co., Ltd., the only difference is that several resistors are welded in different positions. Different welding positions of resistors represent different hardware types and realize different software functions. Differences in software functionality do not affect any hardware performance, including rf performance. This difference is mainly due to different business logic for different application scenarios, such as large malls, small convenience stores, and so on.
