NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to a residential installation. This equipment generates, uses and can radiate radio frequency energy, and if not properly installed and used, may cause interference to other equipment. Some adjustments or modifications may be necessary to prevent actual interference. These adjustments or modifications may not be within the scope of the instructions. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/television technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, including interference that may cause undesired operation.

CAUTION

- Do not touch the moving parts. Touching moving parts may cause injury.
- When not using for 20+ days, remove all batteries. Batteries may leak causing damage.
- Only use the AC charger supplied by the factory.
- Keep away from water and high moisture.
- Do not use the car and the AC charger.
- Keep away from gravel, rocks, water, snow and avoid driving into obstructions.
- Do not operate near motor vehicles, methods of transportation or pedestrians.
- Do not operate on rainy or snowy days. Operate in good weather.
