Solder Board-Component View 2	 A photograph of a small, L-shaped electronic component with a black PCB. The component has several circular solder pads and a small white label with the text "SEMICONDUCTOR" and "P-10703". It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component's length being approximately 40 mm and its width approximately 20 mm.
Solder Board-Component View 3	 A photograph of the same L-shaped electronic component from a different angle. The component has a black PCB with several circular solder pads and a small white label with the text "SEMICONDUCTOR" and "P-10703". It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component's length being approximately 40 mm and its width approximately 20 mm.

Solder Board-Component View 6	 A photograph of a small electronic component, likely a camera module, mounted on a printed circuit board (PCB). The component features a lens, a sensor, and various electronic components. It is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.
Solder Board-Component View 7	 A photograph of the same electronic component from a different angle, showing the underside of the PCB. The component is positioned next to a black ruler with white markings for scale. The ruler shows measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The background is a blue textured surface.
