

72*40mm

Water Leak Sensor

At a glance

Specification

Power supply voltage:	AAA*2 section DC3V (capacity 1000mAh)
Working current:	<90mA
Quiescent current:	<13μA
Decibel:	>120dBA
Working frequency:	433.9845MHz
Size:	110mm*45mm*27mm
Code sending:	(D0\D1\D2)

Installing your Device

- 1.Pull out the battery insulation sheet;
- 2.Placement.

Using your device

1. Detecting dripping

When detecting dripping or seeping water on the ground, the product will emit a 100dB alarm.

2. Removing the alarm

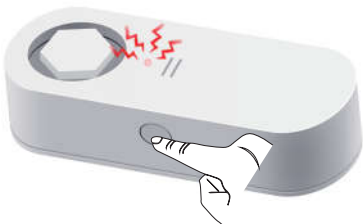

Click to turn off the sound

Please dry the sensor first and then the alarm would be removed.

3. Low battery alarm

When the power capacity is less than 5%

"didi"

When you feel noisy, click the button to turn off the sound

Warning: Do not put the product in water! !

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
