Using introduction

1 Cautions

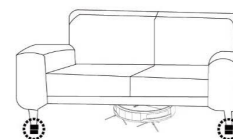

- Before use the cleaner, please follow below guide to check the clean area.

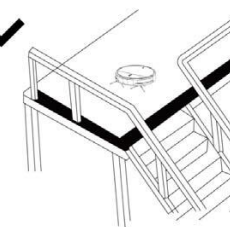

The cleaner may get entangled by the cables or other objects. Please pick up these objects from floor before use the cleaner.

The hairs of the carpet should be folded under the carpet.

The space less than 9cm at the bottom of the furniture may block the cleaner. If it needs to be cleaned, please raise the furniture.

Protective fence shall be set at the edge of the suspension to ensure that the cleaner will not fall off.

Using introduction

2 APP usage guide

Please prepare as below before connect to internet:

- * Place the cleaner and charging station correctly and install side brush etc.
- * Connect your phone to Wi-Fi.
- * Notes: The cleaner only apply to 2.4GHz frequency band Wi-Fi signal.
Please ensure the Wi-Fi meets the requirement.

2.1 Download and install the APP

- * Scan below QR code to download the “Tuyasmart” APP. Or download the “Tuyasmart” APP in APP Store or Google Play.

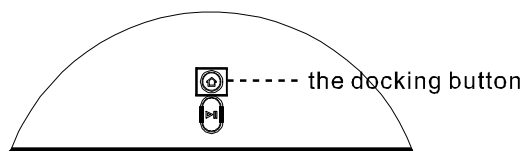

2.2 Register and Login account

- * Create the “Tuyasmart” APP account by phone number or e-mail address. Follow the steps to input the account and password to finish registration.
Notes: If you want to use third party functions, such as Echo etc. Better not use the third party account to login the app.

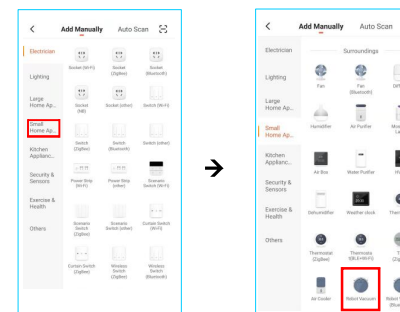

2.3 Add device

- 1) Switch on the power button, make sure the device has power, press and hold the docking button for 5 seconds to enter configure network mode (the cleaner will make a key tone sound). The indicator rapidly blinks (two times one second) in blue color.

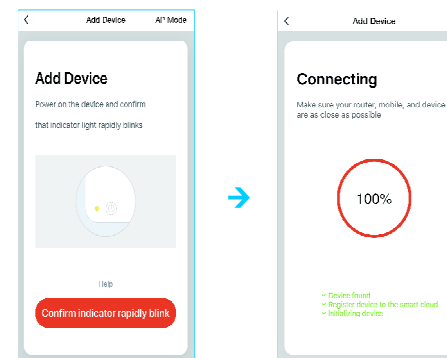

Using introduction

- 2) Open the “Tuyasmart” APP, click “Add Device”, click “Small Home Appliances” and click “Robot Vacuum”.

- 3) Click “Confirm indicator rapidly blink”, input Wi-Fi account and password, click “Confirm” to add device.

Remarks:

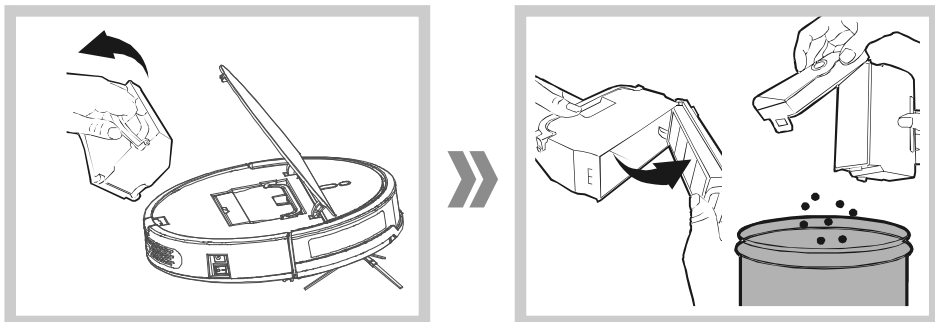

If add device failed, you can try again as above steps to add device. If still can't add the device, you can try “AP Mode” to add the device. Operation as below:

After device enter the default configure network mode, press the docking button 5 seconds again, until the indicator slowly blink, then the device enters “AP Mode”. Click “Confirm indicator slowly blink”, then connect to SmartLift_XXX, the device will start to connect Wi-Fi.

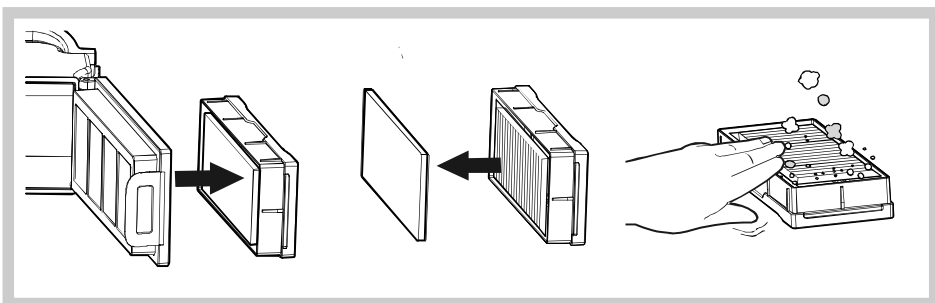

Maintenance

1 Dustbin and Filter

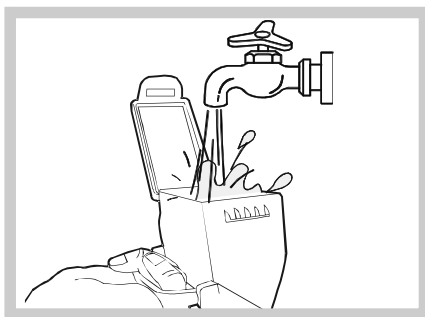

Take the dustbin out, open the dustbin buckle, clean it.

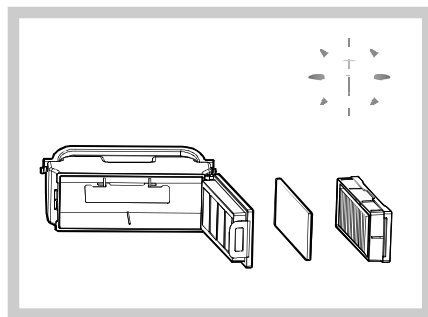

Take the filter out, The HEPA can not be washed! please pat it to clean the dust.

Wash the dustbin and filter.

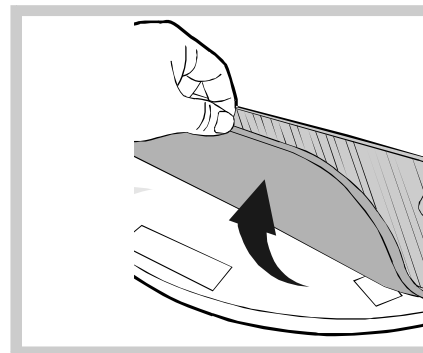

To prolong the dustbin and filter's life, please dry them before use.

Clean cliff detector

To improve the sensitivity, please clean the cliff detectors with mops as the figure below.

Clean side brushes and Universal wheel

Dimensions and Parameters

1 Technical specification for the cleaner

No.	Item	Index parameter	Remark
1	Mode	B-X5	
2	Rated voltage	DC 14.8V	
3	Rated power	30W	
4	Operating temperature range	-10°C ~45°C	
5	Input voltage/current	DC 19V/0.6A	
6	Dimension	Φ350 × 82mm	
7	Weight	3.5KG	
8	Battery	Lithium-ion2600mAh	
9	Dustbin capacity	380ml	

2 Technical specification for the charging dock station

No.	Item	Index parameter	Remark
1	Mode	DS5	
2	Dimension	L×W×H:178×135×99mm	
3	Input voltage/current	DC 19V/0.6A	
4	Operating temperature range	-10°C ~45°C	
5	Operating humidity range	≤ 85RH	

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
