

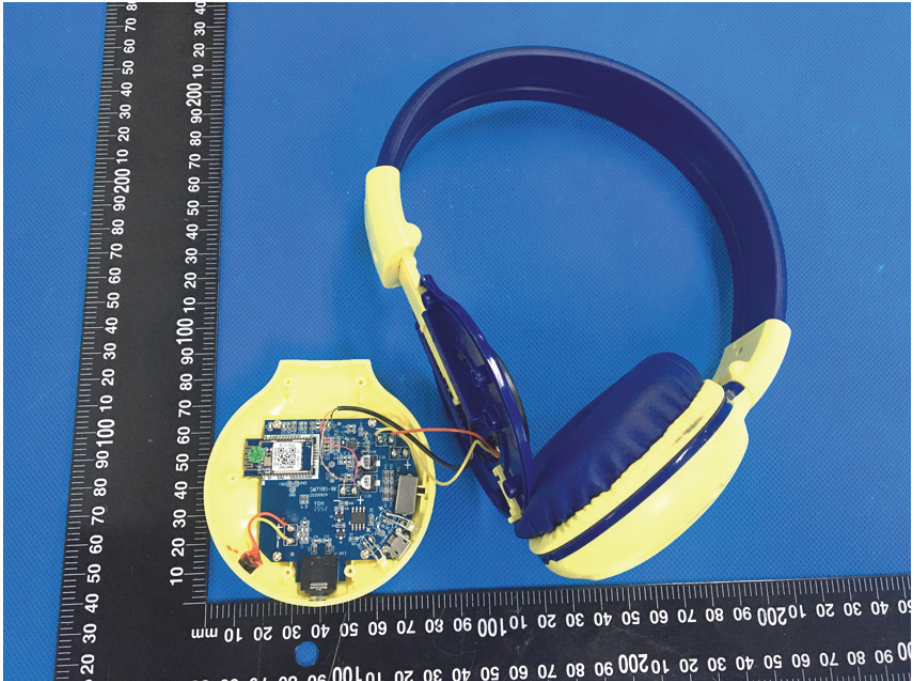

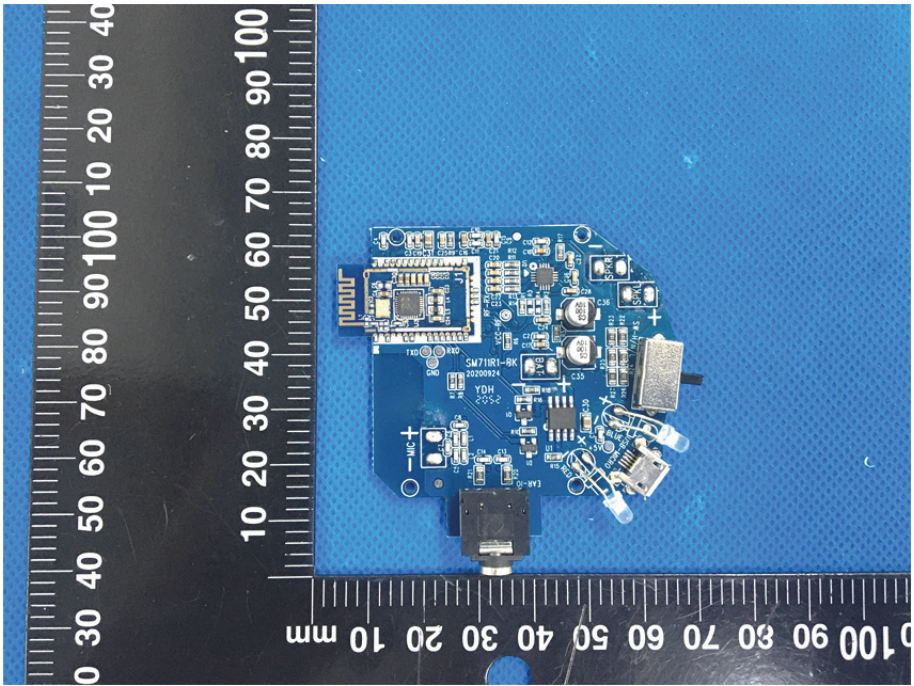

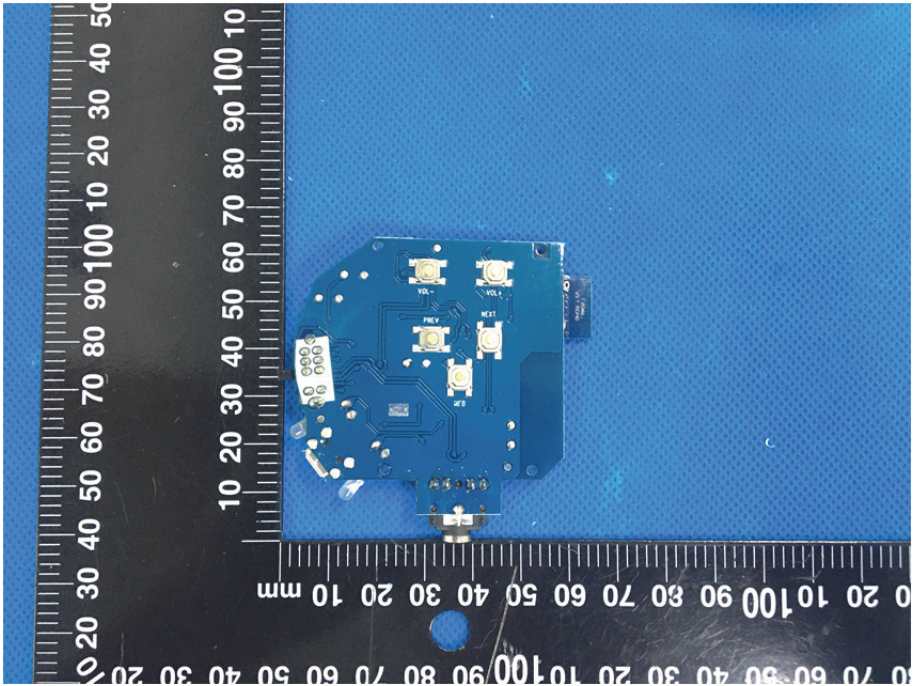

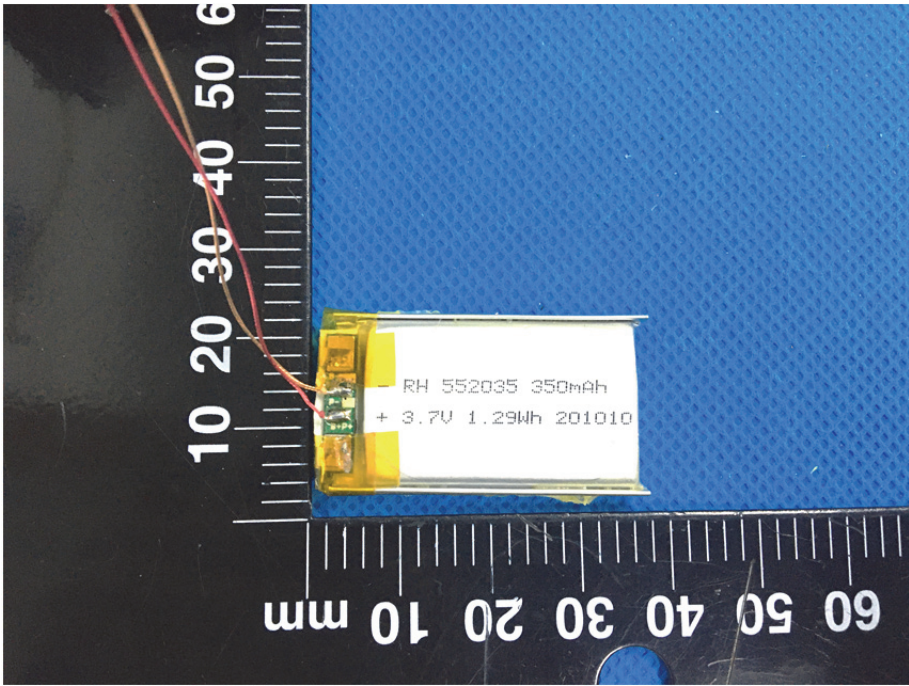

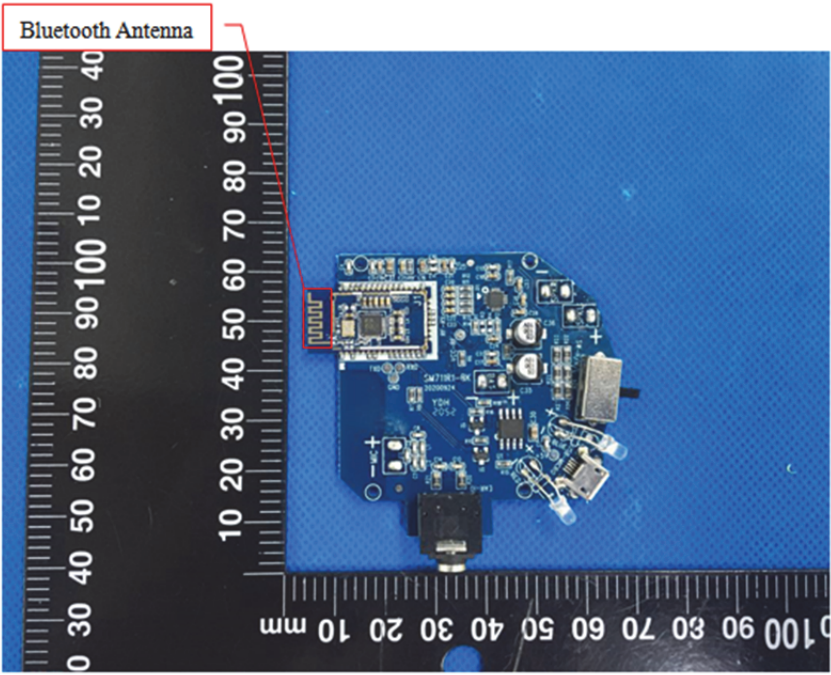

### EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p><b>EUT Housing and Board View 1</b></p>	 A photograph showing the internal components of a yellow and blue headset. The yellow plastic housing is open, revealing a blue printed circuit board (PCB) with various electronic components, including a microcontroller, capacitors, and connectors. The headset's headband and earcups are blue with yellow accents. A black ruler with white markings is placed vertically to the left of the headset for scale, showing measurements in millimeters.
<p><b>EUT Housing and Board View 2</b></p>	 A photograph showing the internal components of the headset from a different perspective. The yellow plastic housing is open, revealing a battery pack mounted on the inner surface. The battery is a rectangular, silver-colored unit with a label. The headset's headband and earcups are blue with yellow accents. A black ruler with white markings is placed vertically to the left of the headset for scale, showing measurements in millimeters.

<p style="text-align: center;"><b>Solder Board-Component View 1</b></p>	 <p>A photograph of a blue printed circuit board (PCB) populated with various electronic components. The board is irregularly shaped and features a microcontroller, several capacitors, resistors, and a USB connector. It is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's width being approximately 100 mm and its height around 60 mm.</p>
<p style="text-align: center;"><b>Solder Board-Component View 2</b></p>	 <p>A photograph of the same blue PCB from a different perspective, showing the soldered components on the reverse side. The board is populated with several surface-mount components, including what appears to be a microcontroller and various passive components. It is placed on the same blue textured surface next to the same black ruler. The ruler shows the board's dimensions, which are consistent with the first view.</p>

<p style="text-align: center;"><b>Solder Board-Component View 3</b></p>	 <p>A photograph showing a small yellow rectangular component, likely a battery, mounted on a blue PCB. The component has a white label with the text "RH 552035 350mAh" and "+ 3.7V 1.29Wh 201010". The component is positioned next to a black ruler with white markings, showing a length of approximately 35 mm. The background is a blue textured surface.</p>
<p style="text-align: center;"><b>Antenna View</b></p>	 <p>A photograph of a blue PCB with various components. A red box highlights a component labeled "Bluetooth Antenna". The component is a small, rectangular, gold-colored chip. The PCB is placed on a blue textured surface next to a black ruler with white markings, showing a length of approximately 100 mm. The background is a blue textured surface.</p>
