Date: August 17, 2022

SUBJECT: Request for Class II Permissive Change on FCC ID: 2AYWR-FLTEL1

To Whom It May Concern:

Fluid Life Corporation is submitting an application for FCC Class II Permissive Change to the Fluid Life Telematics module (FCC ID: 2AYWR-FLTEL1).

New Antenna	Old Antenna
Taoglas MA600 Spartan Screw mount 3in1 Combination Antenna (Model: MA600.A.ABC.007)	Wieson LTE Antenna with SMA-Male Connector (Model: GY115IE002-001)

A change in antenna is required to combine multiple-use type antennas to simplify install and for the antenna to be rugged and IP67 rated.

The new antenna supports higher frequency ranges and higher gains as opposed to the original antenna that can support only a lower frequency range at a lower gain.

No hardware changes were made to the module.

Regards,

Jeff Keen, VP, Information Technology and Reliability Services
