

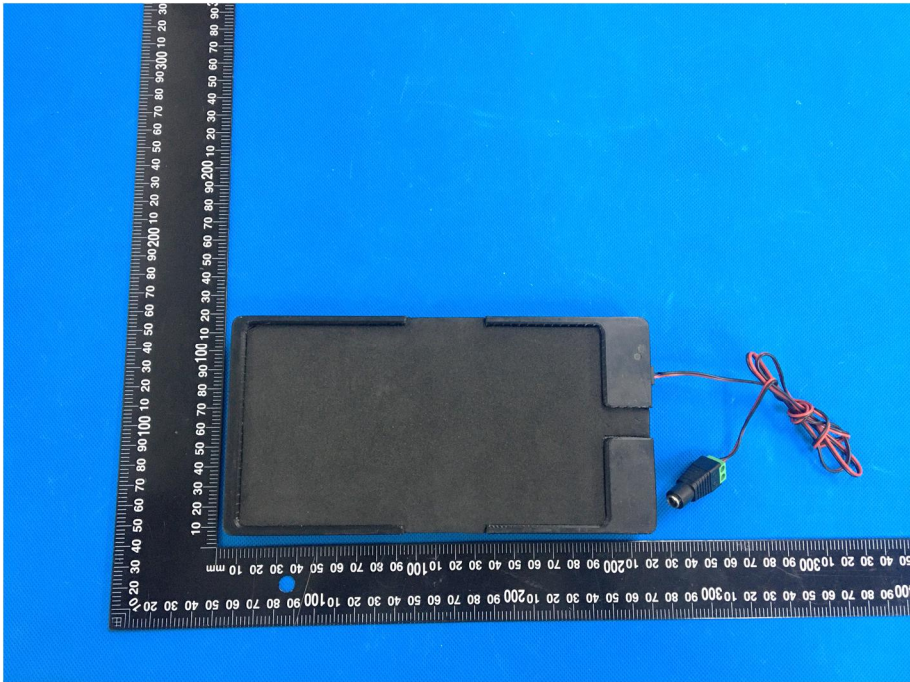

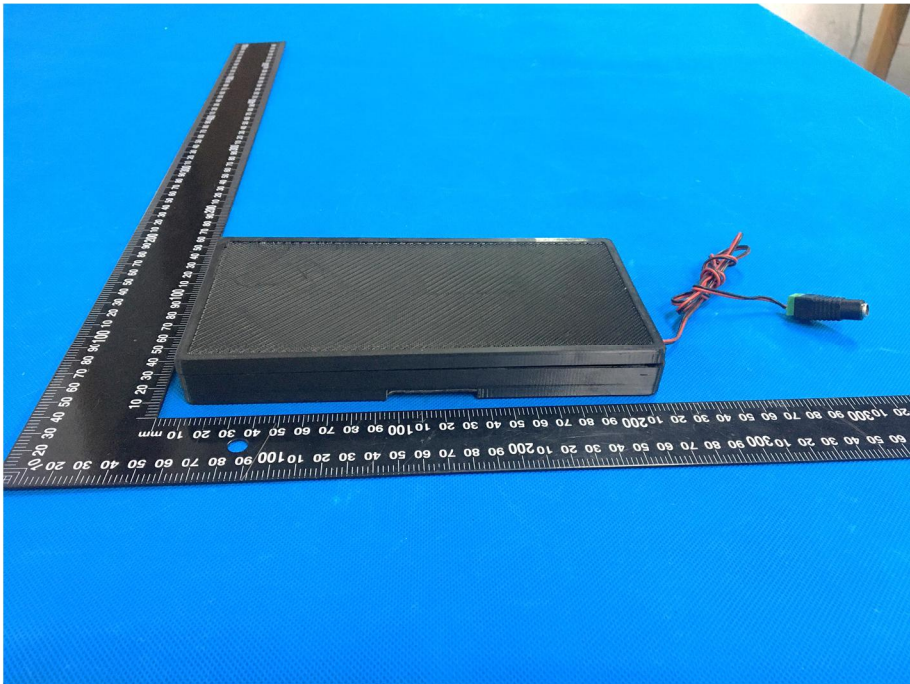

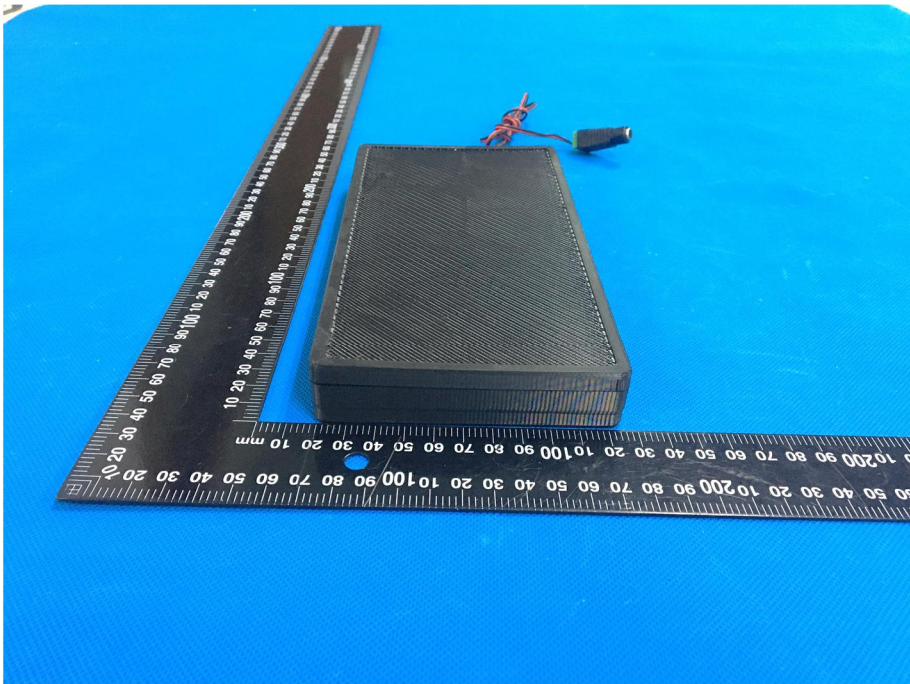

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A black rectangular device, likely an External Under Test (EUT), is shown from a top-down perspective. It is positioned on a bright blue background. To the left of the device is a black ruler with white markings, showing measurements in millimeters and centimeters. A red cable with a green connector is attached to the right side of the device. The device has a smooth, slightly reflective surface.
EUT View 2	 A black rectangular device, likely an External Under Test (EUT), is shown from a top-down perspective. It is positioned on a bright blue background. To the left of the device is a black ruler with white markings, showing measurements in millimeters and centimeters. A red cable with a green connector is attached to the right side of the device. The device has a textured, woven surface.
