

VINCSS FIDO2[®] FINGERPRINT USER MANUAL

Date: 14/04/2021

Number: CSS-IP-PUB-FIDO2-210414-017

Written by: Product Department, VinCSS^{wordless & IAM Services}

VINCSS INTERNET SECURITY SERVICES

No 7, Bang Lang 1 Street, Vinhomes Riverside, Viet Hung Ward, Long Bien District, Hanoi.

VERSION TRACKING

Version	Date	Writer	Position	Contact	Note
1.0	14/04/2021				VinCSS FIDO2 [®] Fingerprint User Manual
1.1	07/06/2021				Update LED indicator colors
1.2	18/08/2021				Update FCC Statement

FCC Regulations:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Note:

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Information

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

I. PRODUCT INFORMATION

VinCSS FIDO2[®] Fingerprint

I.1. General Information

Information	Detail		
Product name	VinCSS FIDO2 [®] Fingerprint		
USB type	USB Type-C		
Bluetooth	Bluetooth Low Energy 5.0		
NFC	ISO7816/ISO14443		
Supported OS	Windows, macOS, Linux, Android, iOS		
Authentication Methods	Passwordless, Strong Two Factor, Strong		
Authentication Methods	Multi-Factor		
Certificate	FIDO2 Certified		
Supported protocol	FIDO U2F/CTAP1, FIDO2(CTAP2)		
	Google Chrome, Mozilla Firefox, Apple		
Supported browser	Safari, Microsoft Edge, Microsoft Edge		
	Chromium		
Encryption algorithm	ECC p256		
CPU	32-bit ARM [®] Cortex TM -M4		
Account storage	50		
Fingerprint storage	5		
Indicator lights	RGB Led

I.2. LED indicator

The VinCSS FIDO2[®] Fingerprint's LED indicator will let you know about current battery state, charging state or working mode.

LED indicator	Meaning	State
Blinking Red 3	The built-in battery is running	Using Plustooth or NEC
times in a row	low and needs to be charged	Using Bluetooth of NFC
Solid Amber	The security key is being charged	Connecting with USB
Solid Green	The security key is fully charged	Connecting with USB
Solid Blue	Bluetooth mode On, the security key is connected to a Bluetooth device	Using Bluetooth
Blinking Blue	The security key enters the pairing mode	Using Bluetooth
Blinking Purple	NFC activated	[©] Using NFC
Blinking White quickly	The security key is processing request and require user interaction	Requiring user verification by touching the fingerprint sensor

II. MANAGING PIN CODE AND FINGERPRINT

PIN code for VinCSS FIDO2[®] Fingerprint is required to add/remove fingerprints, to ensure the safety of the device, avoid adding unauthorized fingerprints, trying to scan fingerprints many times of delete fingerprints from unauthorized users.

Please follow the steps to create/change PIN, manage fingerprints or reset VinCSS FIDO2[®] Fingerprint.

II.1. Windows

II.1.1. Connecting to computer

II.1.1.1. Connecting via USB

Plug the VinCSS FIDO2[®] Fingerprint into your computer using USB cable, make sure the security key is **not** in Bluetooth or NFC working mode. If the LED blinks red 3 times in a row indicating the battery level is below 20%, the amber LED indicates the security key is being charged, the green LED indicates the battery is

fully charged. The VinCSS FIDO2[®] Fingerprint security key can be used while charging.

II.1.1.2. Connecting via NFC

Put VinCSS FIDO2[®] Fingerprint on the NFC reader. When the LED indicator on the key turns purple, the VinCSS FIDO2[®] Fingerprint can be used.

II.1.1.3. Connecting via Bluetooth

- In the off state (no LED indicator), turn VinCSS FIDO2[®] Fingerprint into Bluetooth mode by holding down the fingerprint sensor for 4 seconds until the Bluetooth indicator lights up, the security key will connect automatically to the previously connected device.
- If you have not connected the security key with device before, hold down the fingerprint sensor for 4 seconds to switch to pairing mode.
- Go to *Windows > Settings > Devices > Bluetooth & other devices*.

- In the *Bluetooth* section, select *On*, then select *Add Bluetooth or other device*.

- In *Add a device* section, select *Bluetooth*.

- Select the device named VinCSS FIDO2.

- Enter pairing code to connect (Pairing code is on the back of the key).

- Successful connection. Click *Done* to finish.

- After successful connection, the device list will show the VinCSS FIDO2[®] Fingerprint security key and the remaining battery of the key.

VinCSS FIDC

Note:

- In case you want to pair with a new device, hold down the fingerprint sensor for 4 seconds while the key is on.
- If there is no authentication for 90 seconds, the LED indicator will turn off and the key will automatically enter sleep mode.

II.1.2. Creating a new PIN

- Go to *Start > Settings*
- Select *Account > Sign-in options > Security Key*. Then select *Manage*

← Settings		- 🗆 X
යි Home	Sig	n-in options
Find a setting	Ń	This option is currently unavailable—click to learn more

- Touch the fingerprint sensor on the security key.

- By default, VinCSS FIDO2[®] Fingerprint does not have a PIN. To create a new PIN for the key, in the Security Key PIN, click *Add*.

- Type in the new PIN, then click **OK**.

II.1.3. Changing PIN

- Go to *Start > Settings*.
- Select *Account > Sign-in options > Security Key*. Then select *Manage*.

- Touch the fingerprint sensor on the security key.

- In *Security Key PIN* section, select *Change* to change the PIN code of the key.

- Fill the information in order: old PIN, new PIN, confirm new PIN. Then select **OK**.

II.1.4. Adding fingerprints

After successfully creating a PIN for VinCSS FIDO2[®] Fingerprint, users can add fingerprints to the key (up to 5 fingerprints). Follow the steps below:

- Go to *Start > Settings*.

Select *Account > Sign-in options > Security Key*. Then select *Manage*.

- Touch the fingerprint sensor on the security key, we

- In Security Key Fingerprint section, select Set up.

- Enter the PIN (created in the above step) then select **OK**.
