Charging Your Device

- The charger is not included in the package, please charge this speaker using a USB wall adapter with a DC 5V/1A output.
- Allow about 5 hours to full charge the battery.

Note:

- The unit does not have power bank function, it is forbidden to charge other device via this unit or to connect other device via the USB port.
- To protect the battery, please do not use the speaker while it is charging.

Initial Setup

1. Once your speaker is fully charged, press and hold the ⏻ Power button until you hear a voice prompt indicating the device has entered BT pairing mode.
2. On your smartphone or tablet, search for the BT device named **"Bobtot ET26"** and tap to connect.
3. A prompt will play once pairing is successful.

Note:

1. Insert USB flash drive, ET26 speaker will play the audio files automatically.
2. Insert 3.5mm audio cable, ET26 speaker will play sounds of the device.

How to pair your device?

1. Please turn on the two speakers and make sure that both are disconnected from your other BT device.
2. Select either of the speakers. Long press the 🔊 Mode button till your hear indicator tone.
3. When paired successfully, the LED indicator light of the master speaker will flash with blue and the light on the slave speaker will be off.
4. Please use your BT device to search **"Bobtot ET26"** and connect it. The LED indicator light of master speaker will stay blue. Then you can enjoy the music with two speakers together.

Note:

1. In TWS mode, if you want to turn off, you need to turn off the two speakers separately.
2. Long press the 🔊 Mode button of the master speaker(which the led light stay blue) 3 seconds to disconnect TWS.

FCC Requirement

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.
This equipment generates, uses, and can radiate radio frequency energy, and if not installed and used in accordance with the instructions, may cause harmful

interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
