7

Troubleshooting

About Sound
If there is no sound response after plugging it into USB port, please make sure:
1. The USB interface of your computer can work normally or not?
2. The audio driver of your computer sound is up to date or not?
3. Click the "Speaker" icon in the taskbar, and make sure that "Headset (Realtek(R)Audio)" is selected as your computer playback device.

About BT Connection
1. Make sure the BT of the speaker is not connected by other devices.
2. Unplug the 3.5mm AUX-in cable from your device.
3. Delete" Bobtot A10" memorized on your device, then search for"Bobtot A10" and connect again.
