# SAFETY AND WARRANTY

## Important Safety Instructions

- This machine is designed for indoor use only. Please refrain from using outdoors.
- Clean the machine regularly with a soft, dry cloth. Do not use any liquids, sprays (including solvents, chemicals, alcohol, or abrasives) to clean.
- The machine should not be used near water, such as a bathtub, swimming pool, faucet or basin, which may cause risk of injury.
- Never drop or insert objects into any opening on the device.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- Avoid placing the machine in areas that are exposed to direct sunlight or close to heat-radiating products such as electric heaters. Do not place the device on top of the stereo equipment that may emit heat.
- Avoid placing the machine in areas that are dusty, humid, moist, lack ventilation, or are subject to constant vibration.
- The machine may be subject to interference from external sources such as transformers, electric motors or other electronic devices. To avoid distortion from such sources, please make sure you place the device as far away from these disturbances as possible.
- Do not apply excessive force when using any of the control buttons.

- Power cords should be routed to avoid being walked on or pinched by items placed on or against them.
- Disconnect the power supply of the machine when it is unused for an extended period of time or when moving the device.
- Use this device only for its intended purpose as described in this manual.
- Close supervision is necessary when this appliance is used by or near children, people with learning difficulties or people that have a disability.
- Never operate this device if it has a damaged cord, cable or housing.

## Warranty

We strive to build our products with the highest attention to detail and craftsmanship. However, sometimes there are occurrences of a defect, so we are happy to offer a ONE-year hassle-free warranty to all our devices as we continue to make amazing products. Please contact us if you have any questions about our devices.

## FCC ID : 2AZ9T-S2PRO

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
