*Tap Security to enable/disable different security options as required.

SET UP THE SAFE ENVIRONMENT

- in order to ensure the safety of your children, KIDOZ comes with a child lock that prevents your kids from exiting the safe environment.
- In Safe Mode - your child will be safe inside KIDOZ, ad links and app purchases will be blocked as long as the device is not turned off.
- In Extra Safe Mode - KIDOZ will act as the default launcher as long as the app is running.And even if you power off your device,when you turn it back on, your child will still be safe inside KIDOZ.
- Select the safety level you want for your child by tapping the Lock icon 🔒 and choosing the relevant setting.
- For Extra Safe Mode, you'll be asked to set KIDOZ as default launcher; you can follow the instructions on screen.This will not affect your device use in normal mode.

KID'S CENTER

Tap 🏠 on the top navigation bar to enter kid's center.

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
