Produced in China.

Qi  
USER MANUAL  
QI CHARGER

IDEAL OF SWEDEN

## PRODUCT SPECIFICATIONS

1. Product standard: Qi standard V1.2.4
2. Output power: 5W/Supports up to 10W
3. Input voltage/current: 5V/1.5A
4. Charging voltage/current: 5V/1AMP
5. Charging frequency: 110-205 KHz
6. Charging distance: ≤10mm
7. Maximum RF output power: 34.21 dBuA/m at 3m distance.

## NOTES

1. This product must be used as advised, otherwise it can cause a fire, explosion or other dangers. IDEAL OF SWEDEN has no responsibility in case of misuse or use not compliant with the product instructions.
2. Do not place any products other than specified smartphones on Qi charger, as this can cause damage to your charger.
3. Connect the Qi charger to an appropriate power outlet.
4. Connect the Qi charger to an easily accessible place for easy disconnection.
5. This product is compatible with Qi wireless charging standard V1.2.4

## CONNECTING & CHARGING

1. Connect the supplied cable to your wireless charger.
2. Connect the USB end into any computer or optional wall head (must be UL or ETL).
3. Once plugged in you will see a blue led light turn on then off.
4. Place your smartphone on charger.
5. The blue light will turn on, your phone is now being charged. If you do not see a blue light please move phone over the Qi charger until you see a steady blue light.
6. Allow 4-5 hours for a complete charge.

## SAFETY INFORMATION

1. Do not modify, disassemble, open, drop, crush, puncture or shred the Qi charger.
2. When using the Qi charger, keep it away from flammable materials.
3. Keep the Qi charger away from high (> 45°C 104°F) and low (< -20°C -4°F) temperature environment.
4. Do not expose the Qi charger to rain or water.
5. To prevent heat build-up keep the Qi charger away from fire, heat and sunlight.
6. Disconnect the Qi charger from the power outlet once you are done charging your device.

7. This product is not a toy, keep it away from children.
8. If the Qi charger does not work as described or otherwise as expected, shows any signs of interference with the product being charged or shows signs of being overheated, immediately unplug the Qi charger and remove the charging device.

*This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.*

## FCC CAUTION

Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

## FCC STATEMENT

\*This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance

with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

\*This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
