

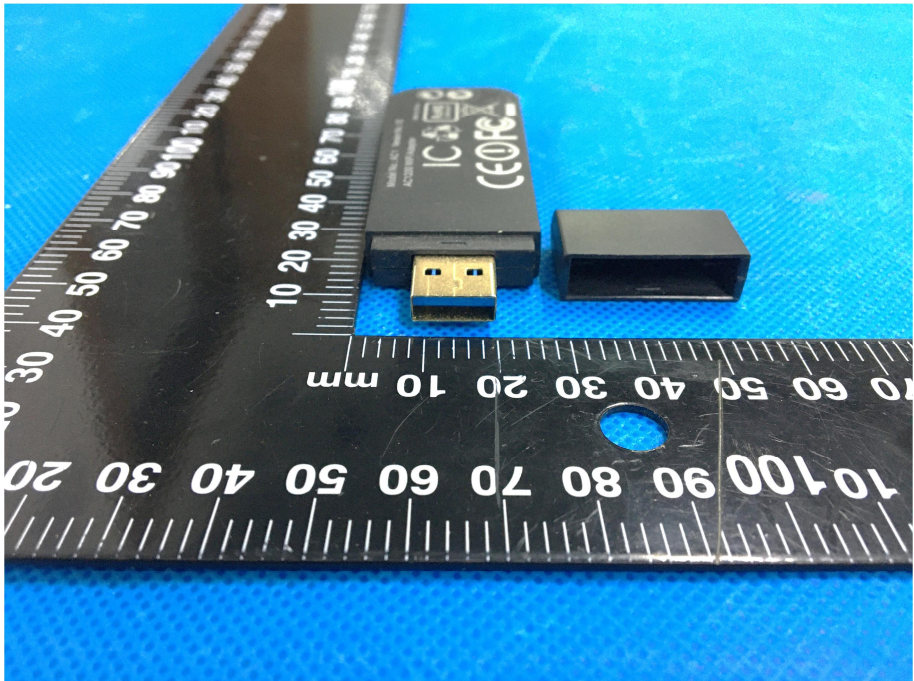

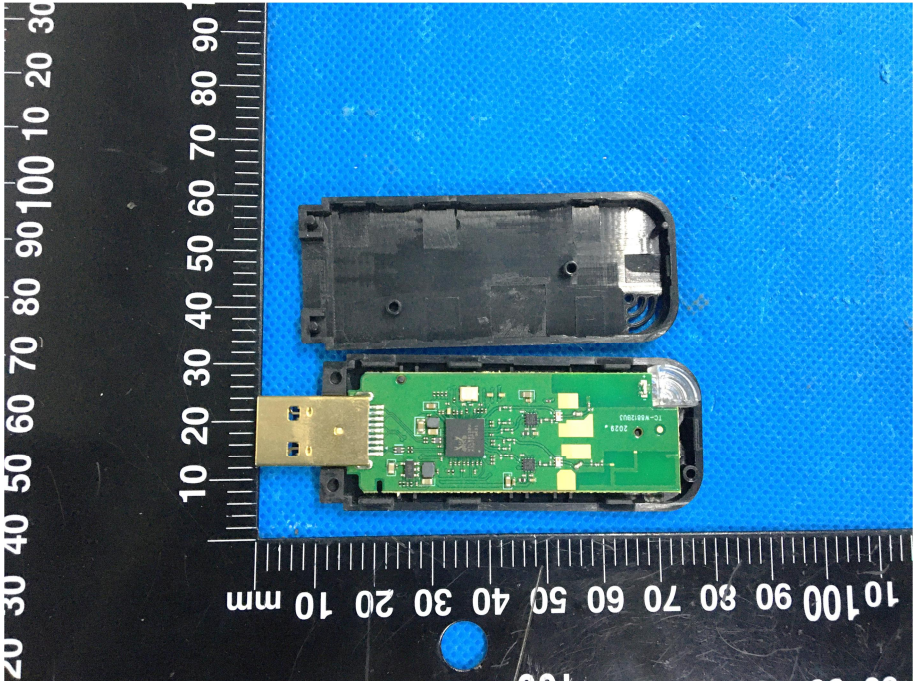

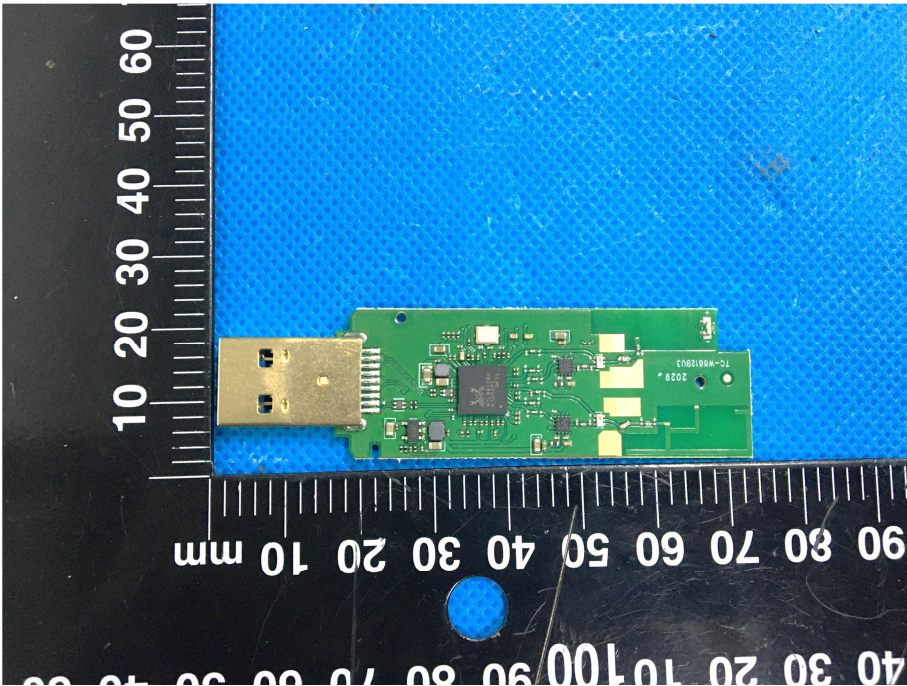

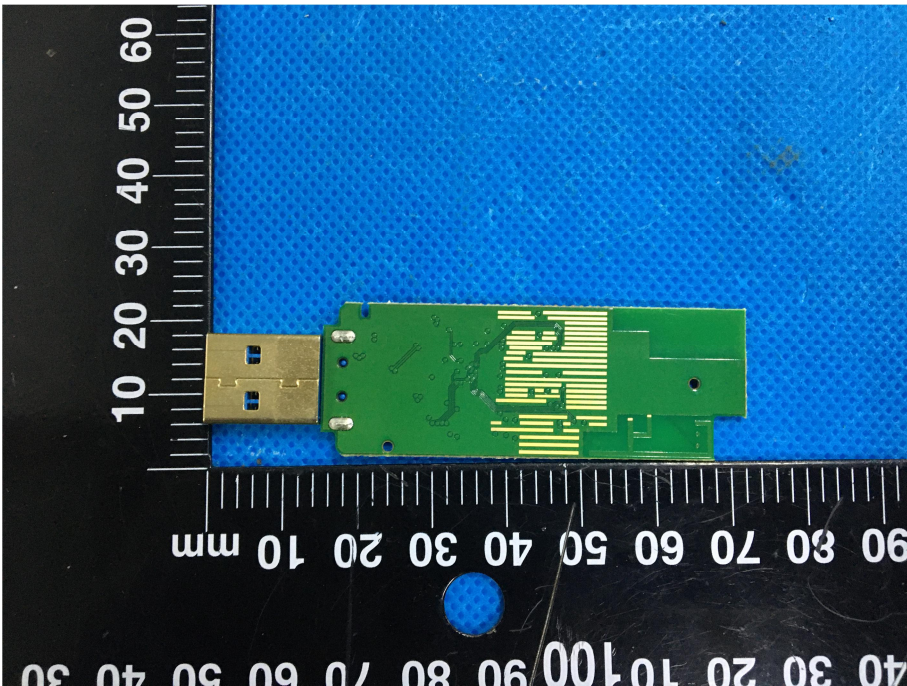

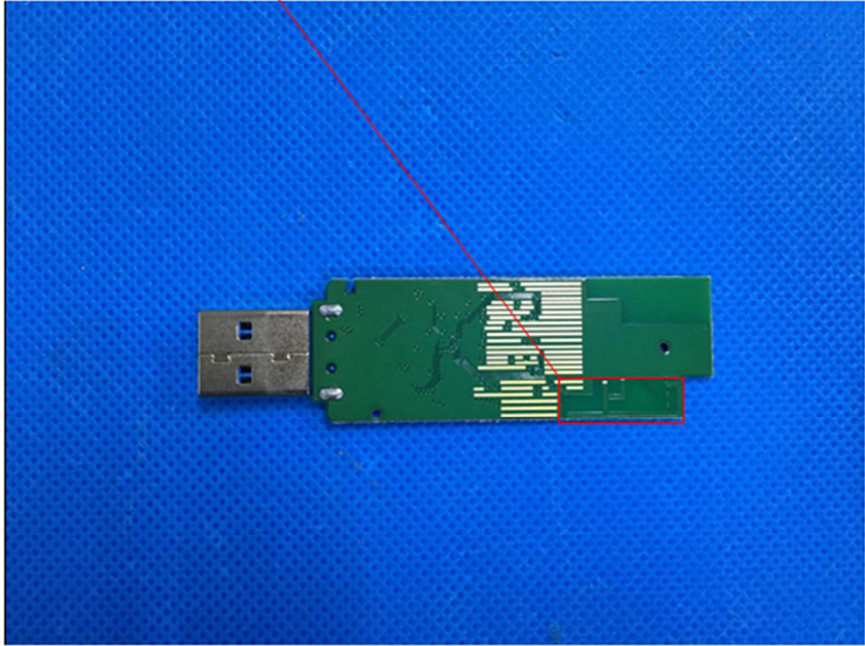

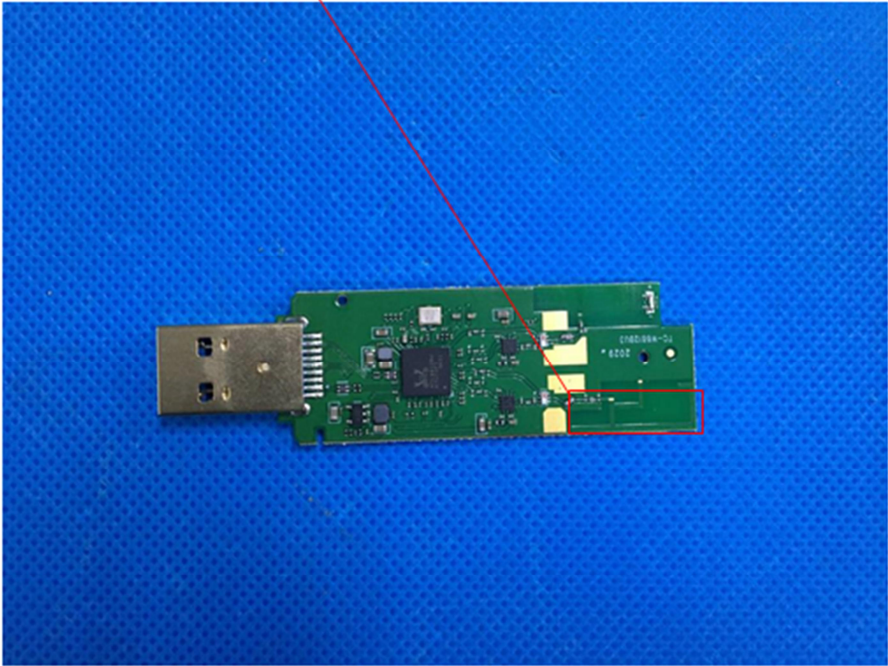

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 <p>A photograph showing a black USB dongle and its protective cap. The dongle is positioned vertically next to a black ruler with white markings. The ruler shows measurements in millimeters, with the dongle's length being approximately 40 mm. The dongle has a gold USB-A connector at the bottom and a black USB-B connector at the top. The cap is a small, black, rectangular piece. The background is a blue textured surface.</p>
<p>EUT Housing and Board View 2</p>	 <p>A photograph showing the internal circuit board of the USB dongle. The board is green and populated with various electronic components, including a microcontroller, capacitors, and a USB connector. The board is placed next to a black ruler with white markings. The ruler shows measurements in millimeters, with the board's length being approximately 100 mm. The background is a blue textured surface.</p>

<p style="text-align: center;">Solder Board-Component View 1</p>	 A photograph showing the top view of a green printed circuit board (PCB) component. The component is rectangular and features a gold-plated USB-A connector on the left side. The PCB is populated with various electronic components, including a central microcontroller or IC, several smaller surface-mount components, and a small white component on the right side. The board is placed on a black surface with a white ruler for scale. The ruler shows markings from 10 to 60 mm vertically and 40 to 90 mm horizontally. The background is a blue textured surface.
<p style="text-align: center;">Solder Board-Component View 2</p>	 A photograph showing the bottom view of the same green PCB component. This view reveals the reverse side of the board, showing the gold-plated USB-A connector, the solder pads for the components, and the intricate circuit traces on the green substrate. The component is placed on the same black surface with a white ruler for scale, showing markings from 10 to 60 mm vertically and 40 to 90 mm horizontally. The background is a blue textured surface.

<p>Antenna View</p>	<p>Wi-Fi Antenna B</p>  <p>The image shows a green printed circuit board (PCB) with a USB connector on the left. A red box highlights a specific area on the right side of the board, which is pointed to by a red line from the label 'Wi-Fi Antenna B'.</p>
<p>Antenna View</p>	<p>Wi-Fi Antenna A</p>  <p>The image shows a green printed circuit board (PCB) with a USB connector on the left. A red box highlights a specific area on the right side of the board, which is pointed to by a red line from the label 'Wi-Fi Antenna A'.</p>
