④ Place your Wireless headset closely to snap on the product.

Precautions

- 1 This product works with all wireless charging products.
- 2 This product is only suitable for original Apple cases with Magafe or Magsafe-compatible cases by KPON.
- 3 Do not put such magnetic objects as metal, magnetic strip card, credit card, public transport card, phone card, etc. beside the charging area of wireless charger to avoid abnormal charging or product damage.
- 4 Keep away from direct sunlight or any high-temperature environments and away from heat-emitting devices such as space heater and microwave.
- 5 Do not strike or throw the product. The improper behaviors will damage the interior circuit board.
- 6 Do not expose to any liquids or operate in humid environments.
- 7 For the purpose of repairs or disassembles, please contact to KPON after-sale service.

Product Features

Input	5V~2A 9V~2A
Output	3W/5W/7.5W/10W/15W(MAX)
Size	φ58mmX6.8mm

(Note: The specific charging power depends on the charging standard of the equipment)

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
The distance between user and products should be no less than 20cm.
