

PHILIPS

Home Power

SPP9034WB/37

V1.06/21

User Guide

Manual/program button
· ON/OFF control
· Pair to network
· Restore factory defaults

3 grounded outlets
Always on

3 Wi-Fi outlets
Individually controlled

Remotely operate your Wi-Fi surge protector with the easy-to-use SmartSelect app. Follow the available instructions and resources to set up your Wi-Fi device.

1. DOWNLOAD THE APP

Scan the QR code above or search SmartSelect on the Apple App Store or on Google Play.

2. INSTALL THE WI-FI DEVICE

Plug the Wi-Fi surge protector into a grounded indoor outlet

Plug the controlled device(s) into the Wi-Fi surge protector – power switch for the connected appliance(s) must be ON

3. SET UP ACCOUNT

Create an account in the SmartSelect app

Add devices, control the Wi-Fi surge protector from anywhere and create schedules.

4. VOICE CONTROL

Compatible with Amazon Alexa and Google Assistant

Follow the steps in the Amazon Alexa or Google Assistant app to connect the SmartSelect app or select "Account" in the SmartSelect app.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC RF exposure statement:

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

FCC ID : 2AZKQ-20617
