- Successful: Connect a second Bluetooth device using steps in Quick Start Guide.
- Reconnect to the first device.

SOUND PROFILES
Your sound, your way! As our sound profiles were crafted by artists and producers at the top of the industry, you're in good hands.

- Balanced Sound**: Our best balanced sound, great for songs with strong beats and a good bass level.
- Bass Sound**: Our most refined sound, perfect clarity to hear every single note.
- Pure Sound**: Our most refined sound, perfect clarity to hear every single note.

NC: Toggle between Sound Profiles. Hold for 13 seconds.

EXTERNAL MIC
Use the provided External Mic to dive deeper into your work. Plug in the External Mic into the Mic Port, and you're all set.

When on a call, press the button on the External Mic to mute/unmute the mic.

TROUBLESHOOTING

Cannot power on	Check that the battery is fully charged before using the device.
No sound when connected to a device via Bluetooth	Check the volume and play/pause buttons on the device and headphones to ensure the Bluetooth connection is set up correctly. Before connecting the headphones, test the Bluetooth of the phone on your Bluetooth device. Ensure that no other Bluetooth devices interfere with the current Bluetooth connection.

Reset your headphones: Ensure the charging cable is plugged into a power source, and connect it to the headphones. While connected, press **Power On** and **Power Off** together to reset your headphones.

	Microphone Operating Range: 3.0m

FCC WARNING
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help. The device has been evaluated to meet general RF exposure statement. The device can be used in portable exposure conditions without restriction.

IC CAUTION:

English:
This device complies with Industry Canada (Icance-exempt RSS standard(s)).
Operation is subject to the following two conditions:
(1) This device may not cause interference, and

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

French:
Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation de cet appareil est soumise aux deux conditions suivantes:
(1) L'appareil ne doit pas produire de brouillage, et
(2) l'appareil doit accepter tout brouillage radioélectrique susceptible de compromettre son fonctionnement.
