※**Watch Operation Instruction**
Side key on the key: Long press for switching machine, Press to return to the standby interface, When the watch freezes, A long press for 10 seconds will restart the watch。
Key the key: Short press to enter various motion modes。
TP gestures: left、Right swipe to enter the main menu, After entering each function, The right dash is return, Slide up and down to select menus，Click the menu to enter the next level menu.
Dial switch: Long press the screen, A dial selection appears, Choose the dial you want
Watch status bar: The standby interface is entered by swiping down, Bluetooth status will be displayed, electricity, Time and other data。
Charging instructions: This product is charged with a magnetic cable, which can be connected to a mobile phone charger within 5V or a computer USB interface. The watch and the magnetic cable will automatically absorb, and it will take about 3 hours for a full charge.The theoretical standby can reach 5 days, normal use can reach 2 days.

The connection between the watch and the mobile phone: first, the mobile phone should download the APP to the mobile phone and install it. There are two ways:
一 Enter the main menu - Settings - select the QR code, use WeChat scan, when the interface is opened, then click the option on the upper right, and choose to open the download with the mobile browser.

二 Search for "GloryFit" on your Android phone.Search for "GloryFit" in the App Store on your iPhone.

After downloading, various permissions will be reminded during the installation process. Press "Yes" to all of them, and all functions can only be realized if the watch is connected to the phone via Bluetooth.

Bluetooth connection method：Go to Settings - Bluetooth - search for available Bluetooth name C9,

and click Connection and Pair. Some Android phones need to open the GPS to search for the name of Bluetooth of the watch.

How to verify a successful Bluetooth connection：Open the Settings menu of the phone to check the device with Bluetooth pairing. If it shows that C9 is connected, the connection is successful.

How to open app notifications:：Open Settings Apply Notifications will prompt you to enable Notifications and select Open.Go back, select the APP that needs synchronous information notification, such as QQ WeChat, and select Open.Note, if WeChat PC version online at the same time, mobile phone terminal will not receive mail notification.

What if I don't get the notice?

1. First of all, the notice function of the watch is just to synchronize the mobile phone notification function, such as incoming mail, QQ WeChat letter reminder, if your mobile phone did not receive the notice, the watch end is not received, to set the notification function in the mobile phone, find the corresponding APP, open the allowed notice.

2. Because the bluetooth protocol of each mobile phone brand is not uniform, sometimes there will be unstable connection between the mobile phone and the bluetooth of the watch, you can turn off the bluetooth of the mobile phone and reconnect it again, or restore the factory setting of the watch.

3 Delete "Gloryfit" and download it again. Note that all permissions must be turned on during the installation process, and then reconnect the watch.

Introduction to main functions：
●phone
