Attention: Application Examiner

RE: Request for Confidentiality
Applicant: 701x, Inc
FCC ID: 2AZT3-701XB01

To Whom It May Concern:

Request is hereby submitted by 701x, Inc to withhold permanently from public review certain portions of the application for equipment certification for the referenced FCC identifiers. This request for confidentiality is made pursuant to 47 CFR 0.457(d) and 0.459 of the FCC Rules. In particular, the following sections of the application are to be kept permanently confidential:

- **Schematics**
- **Detailed Block Diagrams**
- **Detailed Operational/Functional Description**

These items contain detailed system and equipment description and related information about the product which 701x considers to be proprietary, confidential and a custom design which otherwise would not be released to the general public. Since this design is a basis from which future technological products will evolve, 701x also feels that this information would be of benefit to its competitors, and that the disclosure of the information in these exhibits would give our competitors an unfair advantage in the market.

Sincerely,

Braydon Love
Certification Engineer
701x
