Mounting the camera

Select Height and location

Hang the camera 7-10 ft (2-3 m) above the ground. This height maximizes the detection range of the motion sensor of the camera. Avoid placing the camera under direct sunlight.

FAQ

- Q:** The device cannot be previewed properly?
A: Check whether the network is normal, you can place the camera close to the router, and if not, it is recommended to reset the device and add it again.
- Q:** Why is it still in the list of devices after resetting?
A: The reset device only resets the network configuration of the camera, but cannot change the configuration on the App, remove the camera, and must be deleted by the App.
- Q:** How to "connect" the camera to another router?
A: First remove and reset the device on the App and then configure the device again by the App.
- Q:** Why doesn't the device identify the SD card?
A: It is recommended that the SD card be inserted when the power to the camera is off and that it is fully inserted correctly. Make sure the SD card has been formatted with FAT 32. If not, this can be done via the CloudEdge app.
- Q:** Why can't I receive notifications via the mobile phone's app?
A: Please confirm that the App has been running on the phone, and the relevant reminder function has been opened. Message notification and authority confirmation in the mobile phone system have been opened.
