6. Volume Knob

Product parameters

- Audio Input Method: Bluetooth AUX
- Bluetooth Version: V5.0
- Effective Bluetooth Distance: $\geq 10\text{m}$
- Charging Voltage: DC5V 1A
- Output Power: 8W
- Frequency Response Range: 60 Hz-20 kHz
- Stereo Isolation: $\geq 40\text{dB}$
- Signal-Noise Ratio: $\geq 75\text{dB}$
- Speaker Impedance: 4 Ω
- Control Method: knob + button

Operation Instructions

1. Bluetooth pairing mode: Press and hold button to power on and enter the default Bluetooth mode with prompt tone. Bluetooth speaker enters the state of pairing connection (automatic connection to the device connected last time) and the blue decorative lights quickly flash in turn. Power on Bluetooth device (such as mobile phone and other playback devices) and search new device for pairing, then the device labelled with "HY101" will be searched. Dialogue frame will prompt to ask whether to make the connection, then press "YES" or "CONFIRM" to complete the connection. If password is needed to make the connection, please enter the default password "0000" and confirm to complete the connection with prompt tone, the decorative lights will also flash slowly.
2. Bluetooth Music Playback: In the Bluetooth mode, when the speaker is connected to the Bluetooth device and music file has been added to the playlist, short press the Pause button to control the music playback in mobile phone (Bluetooth device); in case of any incoming call, the music playing will be automatically paused and replayed after the call has been made.
3. Disconnected with Other Bluetooth Devices: In the Bluetooth mode, press and hold the Pause button for 2 seconds for repairing Bluetooth and the blue decorative lights will flash quickly in turn; the decorative lights will flash slowly once the connection is done.
4. AUX-IN Playback Mode: Short press the Mode button to switch and play the audio source input from external devices.

Charging and Low Battery Warning: The indicator light will stay on when charging and go out when fully charged. In case of low battery, the "beeping" tone will be sounded and the device will automatically power off in case of seriously low battery; if the product will not be used for a long time, it's recommended to charge once every three months for the sake of longer service life of lithium battery. When being charged, it's recommended not to use the device to ensure the best performance and enough charging time.

Security Information

1. Only use the voltage specified as correct for the instrument.
2. Do not expose the instrument to extreme heat or humidity. Please keep it in a well ventilated and dry place.
3. When cleaning the instrument, use dry cloth. Do not use water, alcohol, gasoline and acid-base detergent. If any metallic object is inserted or liquid is spilled into the product, the power supply should be cut off immediately. You can continue to use this product only after professional inspection.
4. Do not attempt to disassemble the internal components in any way. If it should be repaired, please contact the local retailer or after-sales customer service.
5. This product is only for indoor use. Verified operating temperature range: $-10^{\circ}\text{C} \sim 45^{\circ}\text{C}$. Verified operating humidity range: 30~70%RH.

Packing list

- 1) Audio Device
- 2) Operating instructions
- 3) Audio signal line
- 4) TYPE-C charging cable

FCC warning:

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
