

SmallRig

Charging Tripod 3108

Product Manual

In order to ensure users' safety and prevent damages to the product due to any improper use, please carefully read the "Instructions" below and properly keep this Product Manual for future reference.

Foreword

Thank you for purchasing SmallRig's product.
SmallRig Charging Tripod 3108 includes a charging tripod and a wireless charging holder.

Warnings

- Please read this Product Manual carefully.
- Please do not use the product in water because it is not dust or water proof.
- The charging tripod & wireless charging holder contain electronic originals, do not let the product fall to the ground, hit, or suffer a violent impact.
- Please do not use the product in a completely closed environment. It may increase the internal temperature of the charging tripod and the wireless charging holder, which causes product failure, ignition, or other accident.
- Never remove the non-detachable lithium battery in the charging tripod without permission.
- When the battery of the charging tripod is not in use for a long time, please charge and discharge the battery every six months, and provide it with about 50% of the electric quantity to prolong its service life.
- Since there are some hazardous substances on the battery of the charging tripod & wireless charging holder, please do not discard it. Instead, dispose of the product that is damaged or will never be used according to the waste management measures.
- When the charging tripod & wireless charging holder is not in use, it should be stored in a dry and clean place. Avoid high temperature, high humidity, and strong magnetic field.
- When the wireless charging holder is in use, there can be no metal objects between the mobile phone holder and the mobile phone.

⚠ Please do not disassemble the product. If you have any questions, please contact the seller to apply for after-sales service.

Intended Use

- Please read this Product Manual carefully, especially the "Instructions".
- Please use or store the product in the environment mentioned herein.
- Failure to use the product as per this Product Manual or under the specified working and storage conditions will be deemed as improper use.

Product Description

SmallRig Charging Tripod 3108 is designed for video shooting using smartphones. The charging tripod contains a non-detachable lithium battery, with battery indicator, and power input or output via USB-C port, providing a longer operating life for mobile phones and other devices. It is equipped with a wireless module to control the start/stop of shooting/recording. The tripod can be unfolded to stand on table for support, with a load capacity of 2KG and silicone anti-slip pad beneath the feet as well as folded to become a handle with comfortable grip. Its head swivels 360° and tilts 190°.

The wireless charging holder features one USB-C port on the side, with 5V/2A power input and supports Qi wireless charging of smartphone with or without a phone case. It is compatible with devices of width sizes from 62.92mm to 86.00mm. The holder comes with one cold shoe mount at one end for microphones or LED lights and one 1/4"-20 threaded hole at the other for tripod.

Package List

The package includes the following items:

Wireless Control

- Long press the wireless control button for 3 seconds to enter the wireless pairing mode, then the LED indicator light flashes blue.
- Turn on your smartphone's wireless control and select "SmallRig TR02" for pairing.
- When pairing is complete, the LED indicator light goes off only pairs one device at one time.
- Press the REC button to start/stop taking pictures or recording and the LED indicator light blinks. Manually switch to the phone shooting or recording mode, press the wireless control button to control the start/pause of shooting, the indicator light flashes during the tapping.
- No need to pair again after the first successful pairing.

Battery Indicator

- Press the power button briefly and the battery life indicator lights up to show remaining battery time.

Battery Life	Indicator Light
75%~100%	four lights up
50%~75%	three lights up
25%~50%	two lights up
10~25%	one light up
<10%	one light up and flashes red

- When charging, the corresponding indicator light turns yellow-green. And the indicator light for next-stage battery life flashes yellow-green.

Battery Capacity: 4000mAh Input Power: 15W 5V/3A Output Power: 10W 5V/2A

Product Details

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ▶ -Reorient or relocate the receiving antenna.
- ▶ -Increase the separation between the equipment and receiver.
- ▶ -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ▶ -Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

- (1) Cet appareil ne doit pas provoquer d'interférences.
 - (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.
- l'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.
