7435 Oakland Mills Road  
Columbia, MD 21046

To whom it may concern:

Finalmouse LLC, hereby requests a Permissive Change Class II of the radio equipment certification for the ULXM Wireless Gaming Mouse certification number, FCC ID: 2AZX7-ULXM. This product differs from the originally approved product in the following manner:

- (a) Associated digital circuitry. - No changes.
- (b) Functional capabilities. - No changes.
- (c) Antenna Characteristics. - Enclosure bottom plate has been changed from conductive plastic to non-conductive plastic. The antenna matching has been adjusted for this change, too. Conducted output power is identical. Radiated output power might differ. Therefore, a test report demonstrating continued compliance with the higher field strength and a new antenna pattern plot have been provided.
- (d) Cosmetic differences - No changes.
- (e) Other - None.

I do attest that the conducted RF Output readings remained the same or are lower than the originally approved product and that they did not increase therefore qualifying this product for this application type.

Sincerely,

Finalmouse LLC  
802 Indiana Ave  
Venice, CA, 90291
