Installation

Precautions

Before starting the vacuum cleaner, clean up wires and sundries scattered on the ground, and remove easy-to-fall, fragile, valuable and potentially dangerous items. Avoid being entangled, stuck, dragged or knocked down by the main unit; otherwise, personal injury or property damage may be caused.

Do not use the robot to clean liquid

When used in a suspended circumstance, it shall be protected by rails to avoid accidental falling or pushing other articles from falling; otherwise, personal or property damage may be caused.

Installation

1. Remove the protection material from both sides of the robot

2. Install side brushes

Install the side brush of the cleaner robot. Align the left brush with the motor on the bottom, then press down and hear the "click" sound, which means the installation is in place.

3. Take out and place the Auto-empty dock on a flat floor against the wall and tidy up the redundant wires

4. Clean up the sundries around the dock and connect the power supply that meets the requirement of electricity consumption

Note:

Ensure space more than 0.5m from the left and right to the charging base and 1.5m in front of the charging base.

Installation

5. Do not move the charging base at will; avoid direct sunlight on the charging base

Note:

- The sunlight may interfere the recharging signal, which may cause the robot vacuum cleaner to fail to return to the charging base

6. Power on and charge

Press and hold the  button to power on. When the indicator light is normally on, put the main unit against the charging base for charging; when you hear the voice of “Start charging”, it means that the robot is being charged successfully.

Note: If the battery is at low level, the robot cannot be powered on. Please put the robot vacuum cleaner on the charging base and the device will be powered on automatically

Installation [Mopping function]

1. Open the water injection cover, add appropriate amount of water and then cover tightly, please do not add any detergent.

2. Put the water tank back into the robot

1. Install the mop on the mop support

4. Install the mop support

APP Connection

Preparation before connection

1. Search “Smart Life” in the mobile app store and download the APP

Smart Life

2. Register and log into the APP

3. Click “Add a device” or “+” in the top right corner

4. Select small household appliance – robot vacuum cleaner (Wi-Fi)

5. Select 2.4GHz Wi-Fi network and enter the password

Connect APP

2. Bluetooth network

1. Turn on the cleaner robot first, press and hold the  button and  buttons together for 3 seconds at the same time, then hear the prompt voice "connecting network", and the WiFi indicator flashes quickly, indicating that it has entered the network distribution mode.

2. Click  to select "Add Device"

3. Select the corresponding WiFi and connect, and confirm that the WiFi indicator light of the cleaner robot flashes quickly

APP Connection

2. Bluetooth network

4. The name of the cleaner robot appears on the connection interface, click to select and start automatic network configuration

5. Wait for the APP to connect with the cleaner robot, and enter the operation interface after the connection is successful

6. After entering the APP operation interface, you can draw a map and operate the cleaner robot
