

<p><b>Solder Board-Component View 16</b></p>	 <p>A black PCB component with a white connector on the left side and four mounting holes (two on the left, two on the right). The component is shown next to a ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 100 mm long and 20 mm wide.</p>
<p><b>Solder Board-Component View 17</b></p>	 <p>A detailed view of the PCB component showing various components like a camera lens, capacitors, and a connector. The component is shown next to a ruler for scale. The ruler has markings in millimeters (0 to 100) and centimeters (0 to 10). The component is approximately 100 mm long and 20 mm wide. The text "PCB23X02019626W" is visible on the component.</p>

<p><b>Solder Board-Component View 18</b></p>	 A photograph of a small, square, gold-colored solder board component. The component has several circular holes and a central rectangular area with some markings. It is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The ruler markings are oriented vertically and horizontally.
<p><b>Solder Board-Component View 19</b></p>	 A photograph of a larger, black solder board component. The component has a complex shape with a central rectangular area and several circular holes. It is placed on a blue textured surface. A black ruler with white markings is visible on the left and bottom, showing measurements in millimeters. The ruler markings are oriented vertically and horizontally.

<p><b>Solder Board-Component View 20</b></p>	 A photograph of a black solder board component with a white connector and two white headers. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 40 mm and its height approximately 20 mm.
<p><b>Solder Board-Component View 21</b></p>	 A photograph of a green solder board component with a white connector and several small components. The component is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's width being approximately 40 mm and its height approximately 10 mm.
