

<div>Car Wireless Charger</div> <div>A1</div> <div>Instruction Manual</div>	<div>1.Car Wireless Charger Manual</div> <div>Product Name: Car stand wireless charger (Intelligent sensing)</div> <div>Power: 15W, 10W, 7.5W, 5W</div> <div>Effective transmission distance: 1-8cm</div> <div>Size: Middle disk diameter: 12.88cm×7.75cm×1.78cm</div> <div>Charging interface:USB TYPE-C</div> <div>Packing list: Car bracket x 1, Manual X1, Data line×1, Car outlet base(clip)×1</div>	<div>2.Functional components</div> <div></div>	<div>3. Specifications</div> <div>1. Model : A1</div> <div>2. Weight: 118.5g</div> <div>3. Material: ABS+PC Vacuum plating</div> <div>4. Input voltage/current: 5V/2A, 9V/1.67A</div> <div>5. Output power: 15W, 10W, 7.5W, 5W automatic identification</div> <div>6. Charging power: 110K -205K Hz</div> <div>7. Charging distance: 0-8mm</div> <div>8. Support Specifications: Qualified with Qi Wireless Protocol Charging</div> <div>9. Support QC wireless fast charging equipment such as HUAWEI Mate 30/Mate 20 / Mate RS iphone 12 /iphone 12 Pro/iphone 12mini/iphone 12 Pro Max/iphone 11/iphone 11 pro/iphone XS/iphone XS Max/iphone XR/iphon Re X/iphone 8 Plus/iphone 8/SAMSUNG Galaxy Note10+ /S6/Note10/ Note9/Note8/S10+/S10/S9+/S9/S8+ Wireless charging</div> <div>10.Devices that do not support wireless charging need to purchase Qi-compliant wireless receivers before they can be used</div>	<div>4. Instructions For Use</div> <div>1. Connect the vehicle's wireless charging device to the appropriate data cable when using it.</div> <div>2. Connect the USB part of the data cable to the charging interface on the car's cigarette lighter-switching charger and USB charging port on the car</div> <div>3. The device clip clips the air outlet and can also be placed elsewhere</div> <div>4.After the device is connected to the 5-9V DC power supply, it will automatically check and reset once, and the blue indicator light will illuminate. When the object is close to the device 5cm-20cm, the automatic induction will open its arms and put it into the mobile phone. the device will automatically clamp the mobile phone. At this time, the wireless charger will automatically charge the mobile phone, and the green light will be on when charging (mobile phones with wireless charging functions). When removing the mobile phone, you need to touch the sensing point raised on the top of the rear case. When the hand touches this sensing point, the device will automatically open the double Arm, take out the phone</div> <div>5. This device has over-voltage protection, over-temperature protection, magnetic field protection, short-circuit protection</div> <div>If the device is abnormal, it will automatically stop working</div>	<div>5.Operating instructions for coil adjustment gear</div> <div>1. The gear position is 1 gear by default. When the coil position needs to be adjusted, press the upper right side button to adjust the gear position and push up to gear 2 or 3. When the gear is in gear 3, it needs to be adjusted to gear 1 or in 2 gears, press the side button to push down one gear.</div> <div>2. The coil adjustment gear is mainly to accurately adjust the coil position corresponding to the shape and size of each mobile phone with wireless charging, so that the wireless charging efficiency conversion effect is better, and the charging is faster</div> <div>3. Take the iphone series mobile phones as an example. For example: iphone8/iphone12mini is 4.7/5.4 inches corresponding to gear 1; iphone12/iphone12pro is 6.1 inches corresponding to 2 gears; iphone 12pro Max is 6.7 inches corresponding to gear 3</div> <div>6.Precautions</div> <div>1. Do not over-squeeze or hit the device</div> <div>2. Do not use the wireless charger under severe high temperature, humidity or corrosive environment to avoid damaging the device's circuit</div> <div>Thank You For Using This Product</div>

**FCC Warning Statement:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### **FCC Radiation Exposure Statement**

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co - located for operating in conjunction with any other antenna or transmitter.
