Important Safety Information

WARNING: NOT FOR AGGRESSIVE DOGS Do not use this product if your dog is aggressive, or if your dog is prone to aggressive behavior. Aggressive dogs can cause severe injury and even death to their owner and others. If you are unsure whether this product is appropriate for your dog, please consult your veterinarian or certified trainer.

CAUTION:

Risk of skin damage: Please read and follow the instructions carefully in this guide. Proper fit of the collars is important because a loose collar may cause inconsistent performance. A collar worn for too long or made too tight on the pet's neck may cause skin damage, ranging from redness to pressure ulcers (commonly known as bedsores). These collars can cause pressure necrosis

if used incorrectly and is often misidentified as burns. Avoid leaving the collar on the dog for more than 12hours per day. When possible reposition the collar on the pet's neck every 1 to 2hours. Check the fit to prevent excessive pressure, and it is okay to trim any excess trap length.

Never connect a lead to the electronic collar because it may cause excessive pressure on the contacts.

Wash the dog's neck area and contacts of the collar weekly with a damp cloth. Examine the contact area daily for signs of a rash or a sore. If a rash or sore is found, discontinue use of the collar until the skin has healed. If the condition persists beyond 48 hours, see your veterinarian.

These steps will help your pet safe and comfortable. Millions of pets are comfortable while wearing stainless steel contacts. Some pets are sensitive to contact pressure. You may find after some time that your pet is very tolerant of the collar. If so you may relax some of these precautions. It is important to continue daily checks of the contact area. If redness or sores are detected, discontinue use until the skin has fully healed.

Thank you for choosing our products! You and your pet deserve a companionship that includes memorable moments and a shared understanding together. Our mission is to ensure your pet's safety by providing you the tools and techniques to successfully train your pet. Should you have any queries, please contact our customer service.

Note: Please charge before using the product.

重要安全信息

警告：

不适合有攻击性的狗。如果您的狗有攻击性行为或有这种倾向，不要使用本产品。具有攻击性的狗狗会对他们的主人和其他人造成严重伤害甚至死亡。如果您不确定本产品是否适合您的狗，请咨询您的兽医或认证培训师。

注意：

有皮肤损坏的风险：请仔细阅读并遵循本说明书中的说明。正确安装项圈很重要，因为松动的项圈可能导致功能失效。在宠物脖子上戴太久或太紧的项圈可能会导致狗狗皮肤损伤，从发红到压疮（通常被称为褥疮）。如果使用不当，这些项圈会导致狗狗皮肤受到长期压制而坏死，并且经常被误认为烧伤。

如果可能，每天将项圈留在狗身上超过 12 小时。

每 1 到 2 小时重新调整项圈的位置。

检查松紧度是否合适以防过度压力，若太长可以剪掉。

不要将任何导线连接到项圈上，因为它可能会对接触点造成过大的压力。

每周用湿衣服擦拭狗的颈部和项圈的接触处。每天检查接触处是否有皮疹或疼痛的迹象。

如果发现皮疹或疼痛，停止使用项圈直至皮肤恢复正常。

使用项圈直到皮肤痊愈如果情况持续超过 48 小时, 请看兽医

这些步骤将帮助保证您的宠物安全和舒适。数以百万计的宠物佩戴项圈未出现不适。有些宠物对接触压力很敏感, 一段时间后你可能会发现你的宠物已经适应了项圈。如果是这样, 你可以减少一些预防措施。但是每天要检查接触区域, 如果发现红肿或疮, 立即停止使用, 直到皮肤完全愈合。

谢谢您选择我们的产品! 你和你的宠物应该有一个难忘时刻和共识的陪伴。我们的服务是通过为您提供工具和技术来成功地训练您的宠物, 从而确保您的宠物的安全。如果您有任何疑问, 请联系我们的客服

How the dog training system works?

Our products are reliable, effective, and comfortable for large or small dogs. The system assists in controlling your dog without a leash in a range up to 800 feet away! Instantly send a signal from the Remote Transmitter, which activates your dog's Collar Receiver. The dog will receive an annoying but safe, harmless stimulation. With correct, consistent use of this product, the dog will associate his misbehavior with your corrections, and soon enough, you will have a well-trained dog. This particular model features adjustable levels of stimulation, enabling the user to tweak accordingly to the dog's temperament, removing the risk of over stimulation

Features

Rechargeable Remote Transmitter and Collar Receiver.

Waterproof Collar Receiver.

100 intensity levels of Vibration

100 intensity levels of Static Shock

Standard Tone

Easy to use, adjustable Intensity LCD

Simple, ergonomic design layout.

Quick and straightforward pairing process

Range of 800 feet Capable of simultaneous control of three dogs (extra receiver is purchasable)

Adjustable strap to accommodate any size of dog Auto-off feature to conserve power when not in use to extend battery life

Remotely turn on/off Collar Receiver

狗训练系统是如何工作的?

我们的产品是可靠的, 有效的, 和舒适的适合各种尺寸动物。该系统有助于控制您没有戴牵引绳的狗距离高达 800 英尺! 从遥控发射器发送信号, 立即激活您的狗项圈接收器。狗会受到烦人但安全、无害的刺激, 正确、连续地使用本产品, 狗会将他的不良行为与您的纠正联系起来, 很快, 你就会有一个训练有素的狗。特殊的型号具有可调节刺激等级的功能, 使用户可以根据狗的性情进行调整, 从而消除过度刺激的风险。

特点

可充电的遥控发射器和项圈接收器。

防水项圈收器。

100 的振动强度等级

100 的静电强度等级

标准音调

易于使用，可调强度显示屏
简单，符合人体工程学设计布局
快速简单的配对
范围为 800 英尺
能够同时控制三只狗（额外的接收器是可购买的）
可调节带，以适应任何尺寸的狗狗
自动关闭功能，以节省不使用时的电力，延长电池寿命
远程打开/关闭项圈接收器

Key Definitions

Remote Transmitter

1. LCD: The working condition of the receiver can be clearly observed through the LCD
2. Indicator Light: Flashes green when any of the stimulation buttons are pressed
Will blink red if battery power is low to indicate the transmitter needs recharging
3. Stimulation Button: Delivers electronic pulse stimulation to a Collar Receiver.
depending on the position of the Toggle Switch
4. Vibration Button: Delivers vibration to a Collar Receiver, depending on the
position of the Toggle Switch
5. Sound Button: Delivers a sound to a Collar Receiver, depending on the position
of the Toggle Switch
6. Light button: Double click the light button, the light will turn on, and click the light button again, and the light will turn off.
Press and hold the Light button to enter the screen lock and unlock function. When the screen is locked, other function keys
cannot be operated, only the battery level is displayed.
7. Toggle switch (dog selection): Switch control between Collar receiver A or receiver B (dog A or dog B, up to three dogs can
be controlled, when the A icon and B icon on the display screen are on at the same time, you can learn Collar receiver C.)
8. Intensity plus and minus keys: press plus and minus keys to adjust the level of vibration or static shock
stimulation from 0 to 100
9. Charging Port: Charges the battery of the Remote Transmitter when connected to a power source. When charging, the red
LED light , LCD will display flow. When it is fully charged, the red LED be off and the green LED light, the LCD will display full
grids.

10. Low battery function. When the battery is low, the red light will flash, and the LCD screen will display the power shortage status, prompting the customer to charge in time.

遥控发射器(此处要图)

1. 显示屏: 通过显示屏可以明确观察接收器工作状况
2. 指示灯: 当按下任何刺激按钮时, 指示灯会闪烁绿色
电池电量不足时是否会闪烁红色, 表示发射器需要充电
3. 刺激按钮: 根据开关的位置, 将电子脉冲刺激传送到接收器。
4. 振动按钮: 根据开关的位置, 将振动传递给接收器
5. 声音按钮: 根据开关的位置, 将声音传递给接收器
6. 照明灯按钮: 双击照明键, 照明灯会亮起, 再单击照明键, 照明灯会关。长按照明键会进入锁屏和解锁的功能, 锁屏时其它功能键不能动作, 只显示电量。
7. 通道开关键 (狗狗选择): 按这个键可以切换接收器 A 或和接收器 B (控制狗 A 或狗 B, 最多可以控三只狗, 当显示屏 A 图标和 B 图标同时亮可以学习接收器 C。)
8. 强度加减键: 按加减键可以任意调整振动和静电刺激强度, 刺激强度从 0 到 100 级
9. 充电口: 连接到一个能量源时给远程发射器充电。充电时, 红灯会亮起, LCD 会跑马显示, 充满电时, 红灯灭绿灯会亮起, LCD 会显示满格。
10. 低电提示功能。低电时, 红灯会闪起, LCD 屏会显示缺电状态, 提示客户及时充电。

Collar Receiver

1. Contact points: Covers the electrodes, and through them electronic pulse

stimulation is delivered

2. ON/OFF Button: Powers on/off the Collar Receiver and used for Pairing or

Synchronization of the Collar Receiver to the Remote Transmitter.

Press the button, the green light flashes once, and the sounds D once, is ON, press again, the green light flashes twice, and the sounds D-D twice is off

3. Charging Port: Charges the battery of the Collar Receiver when connected to

a power source. When charging, the red light on and the battery indicator will be displayed. When it is fully charged, the red light off and the green light on, and the battery indicator will be full.

4. Indicating Light: Flashes green when any of the stimulations are pressed

Will blink red if the battery power is low to indicate the Collar Receiver needs

recharging

Operating Guide

Prepare the Remote Transmitter and Receiver Collar:

Charge the Remote Transmitter and Receiver Collar

1. Attach the charging connector firmly to the Charging Port.
2. Plug the charger into a standard wall outlet
3. A solid red light will appear on the Indicator Light, indicating charging
4. Once charging is complete, the solid red light will turn to a solid green

is occurring.

项圈接收器

- 1.接触点：覆盖电极，并通过它们进行电子脉冲，提供刺激
- 2.开/关按钮：打开/关闭接收器，用于配对或接收器与远程发射器同步。
- 3.充电口：当连接到电源时给接收器充电。
- 4.指示灯：按下任何按钮时闪烁绿色，如果电池电量低，将灯将闪烁红色表明接收器需要充电

操作指南

准备遥控发射器和接收器套环：

给遥控发射器和接收器充电

- 1.将充电接头吸牢充电端口
- 2.将充电器插入插座
- 3.指示灯上会出现一个稳定的红灯，表示正在充电。
- 4.充电完成后，红灯将变为绿灯。

Note: Before first use, charge the Remote Transmitter and Receiver Collar until completion.

Powering on and off the Remote Transmitter

There is no need to turn off the transmitter. When there is no buttons being pressed on transmitter, the unit turns off automatically. Press any button and the transmitter will power back on automatically

Powering on and off the Collar Receiver

Press the ON/OFF button on the receiver to power the unit on or off. When the receiver is powered on, the indicating light will flash green

Pairing Collar Receiver to Transmitter

Note: Transmitter and receiver are pre-paired when leaving our manufacturing facility. In case the pairing is not established or you would like to repair the units, please follow the instructions below

1. Turn on the transmitter first, press the "CH" button to select dog A
2. Power on the Collar Receiver by pressing the ON/OFF button on the Collar Receiver.
3. Press and hold the ON/OFF button for about 3 seconds, the indicator light will start to flash quickly, when the indicator light flashes quickly, please press any button of the transmitter sound, vibration, static key, When the Remote Transmitter and Collar Receiver are paired successfully, the Collar Receiver D beeps, the indicating light will stop flashing.
4. If needing to pair a second Collar Receiver, follow the same steps, but turn on the transmitter and select Dog B.
5. If needing to pair a second Collar Receiver, follow the same steps, but turn on the transmitter and select dog C, the A and B icons on the display will light at the same time to represent dog C

注意：在第一次使用之前，给远程发射器和接收器充满电

打开和关闭远程发送器的电源

没有必要关掉发射器当不按按钮时本机自动关闭。按任意按钮，发射器将自动恢复工作状态

打开和关闭接收器的电源

按接收器上的“开/关”按钮以打开或关闭本机。当接收器接通电源，指示灯将闪烁绿色

接收器到发射机的配对

注：生产完毕后发射机和接收器会预先配对。如果配对没有建立或请按照以下说明进行维修

1. 先打开发射器，按 CH 键选定狗 A 或狗 B
2. 通过按下接收器上的 on/OFF 按钮以打开接收器。
3. 按住接收器按钮并保持大约 3 秒，指示灯开始快速闪烁，当指示灯快闪时请按发射器声音，振动，静电中的任一键，当远程发射器和接收器成功配对时，接收器会 D 一声，同时指示灯停止闪烁
4. 如果需要配对第二个接收器，请遵循相同的步骤，打开发射器选定狗 B。
5. 如查需要配对第三个接收器，请遵循相同的步骤，打开发射器选定狗 C，显示屏上 A,B 图标同时亮代表狗 C

Test the Training System Functions

The testing methods will help determine whether the training system is functioning as intended and will also teach you how to operate the system
Please ensure that the pairing process is complete before attempting to test the functionality.

Testing the Electronic Pulse Stimulation

Electronic Pulse Stimulation Tester

In your package that you received, you will find a clear almost translucent plastic piece that has a light bulb/fuse in the middle of it. This is your Electronic Pulse Stimulation tester. This component DOES NOT attach to the Collar Receiver by any means and is only for testing the static shock mode. To test the Electronic Pulse Stimulation, follow these steps

1. Put the test light over the Electrodes of the Collar Receiver you wish to test
2. Ensure the Toggle Switch is in the correct position for the Collar Receiver you're testing
3. Adjust the Intensity Dial off of 100.

4. Press the Static Shock Button on your Remote Transmitter
5. If done correctly, the test bulb should flash red indicating the electronic pulse stimulation is operating correctly

测试训练系统功能

测试方法可以帮助确认训练系统是否如描述那样有效，也会教你操作系统的方法。请确保测试功效前配对完成。

测试电子脉冲功能

电子脉冲刺激测试

在包装中会有有一个几乎透明的塑料片，在塑料片中间有一个灯泡。这就是测试工具。这个不是和接收器配套的只是为了测试静电模式。

要测试电子脉冲刺激，请遵循以下步骤

1. 将测试灯放在需要测试的电极上方
2. 确保 Toggle 开关在正确位置上
3. 调节强度至 100
4. 在远程发射器上按振动按钮
5. 若步骤操作正确，测试灯泡会闪烁橙色灯，表示脉冲刺激模式正常。

Note: If wanting to test the shock function on yourself, please ensure your finger or hand is across both contact points to ensure the connection is complete. Otherwise, user will feel no stimulation

Testing the Vibration Functions

1. Ensure the Toggle Switch is in the correct position for the Collar Receiver
2. Adjust the Intensity Dial off of 100
3. Press the Vibration Button on your Remote Transmitter
4. If done correctly, the Collar Receiver will vibrate

Testing the Sound Functions

you're testing. Press the Sound Button on your Remote Transfer

1. Ensure the Toggle Switch is in the correction for the Collar Receive

2. If done correctly, the Collar Receiver will emit sound

注意：如果你想测试振动功能，请确保你的手指或手接触到两个接触点以确保连接完成。否则，用户将感觉不到任何刺激

测试振动功能

- 1.确保 Toggle 开关与接收器处于正确的位置
- 2.将强度调至 100
- 3.按遥控器上的振动按钮
- 4.如果操作正确，接收器将振动

测试声音的功能

1. .确保 Toggle 开关与接收器处于正确的位置按遥控器上的声音按钮，
- 2.如果操作正确，收器将发出声音

Assemble and Fit the Collar Receiver

Attaching the Contact Points

In your package that you received, you will find 1 set of contact points These contact points are screwed onto the receiver so that the points can effectively contact the dogs skin without hair/fur interfering with the connection

Attaching the Collar Strap to the Collar Receiver

The Collar Receiver attaches to the Collar Strap by sliding through the tabs on each side and going wrapping around the back of the Collar Receiver. To accomplish this correctly, please view the diagram below

Fitting the Collar Receiver

Important: The proper fit and placement of the Collar Receiver is essential for effective training. The electrodes must have direct contact with the dog's skin

- (1) To fit the Collar Receiver, attach the Collar Strap to the Receiver
- (2)With the dog standing in front of you, place the Collar Receiver around the dogs neck, so the receiver box and Contact Points are on the underside of your dog's neck, making direct contact with the dog's skin If direct contact is not possible, shaving some fur away, to ensure good contact IS recommended
- (3)Fasten the collar strap. The fit should be snug, but not taut. A finger should be able to be placed beneath the collar strap when around the dog's neck
- (4)Allow the dog to wear the Collar Receiver for several minutes and check the strap again. The dog will soon become more familiar with the Collar Receiver, so it is crucial to ensure the fit comfortable and flattering

安装接收器

连接接触点

在您收到的包装中，您将找到一组接触点
这些接触点拧到接收器上，使得接触点
能有效地接触狗的皮肤，而不受毛发/毛皮干扰

将项圈带连接到项圈接收器上

通过滑动项圈带穿过两边的扣环连接到接收器背面缠绕 接收器。 要正确完成此操作，请查看下面的图表

安装接收器

重要事项:接收器的正确安装和放置对有效的培训是至关重要的。电极必须与直接接触狗狗的皮肤。

- (1) 为了安装接收器，将项圈带连接到接收器上
- (2) 狗站在你面前，把项圈接收器放在狗的脖子上，确保接收器盒和接触点直接接触狗狗脖子下方的皮肤
若无法直接接触，建议剃掉一些毛发，以确保良好的接触以及有效使用
- (3) 锁紧项圈。合身应该舒适而不是绷紧。戴好之后脖子下方和接收器带子之间应该有一个手指的空隙。
- (4) 让狗戴上项圈接收器几分钟，再检查一下项圈带。这只狗很快就会熟悉项圈接收器，所以确保项圈的合身、舒适和讨喜是至关重要的

CAUTION: RISK OF SKIN DAMAGE

For comfort, safety and effectiveness of this product please check
the fit of the dog's collar frequently. If observing any skin irritation
immediately discontinue use of the collar for a few days. If the skin
condition persists beyond 48 hours, consult a veterinarian. These
collars can cause pressure necrosis, commonly known as bed sores
if used incorrectly and is often misidentified as burns

Do not attach a leash to the collar, which can result in squeezing the
Contact Points too tightly against your dog's neck

The design of the Collar Receiver discourages constantly wearing
the device. recommends the collar not be worn for more
than 12 hours out of every 24-hour period

Most dogs feel uncomfortable when wearing the collar for the very
first time. Do not use any functions until the dog is accustomed to
the collar

we suggests giving the dog, the vibration stimulation before
following it with a static shock. After training for a while using this
method, the dog will be aware that after vibration comes a static
shock. Vibration will act as a warning, and static shock only acts
a menace that might be necessary sometimes

注意:有皮肤损伤的危险

为确保本产品的舒适性、安全性和有效性 请经常检查狗的项圈是否合适。如果观察到任何皮肤刺激，请立即停止使用。如果皮肤不适持续超过 48 小时，请咨询兽医。这些项圈可引起压力性坏死，通常称为褥疮
如果使用不当，经常被误认为烧伤。

请勿将牵引绳系在项圈接收器上，否则接触点太紧可能会挤压狗狗脖子
接收器的设计不鼓励经常佩戴 IPETS 建议每 24 小时超过 12 小时 不要再佩戴
大多数狗刚开始戴项圈时会感到不舒服，在狗狗适应之前，不要使用任何功能

IPETS 建议给狗狗使用静态冲击之前先用振动刺激。使用此方法经过一段时间的训练，
狗会意识到振动之后是静电刺激。 振动将起到警示作用，而静电冲击在必要时起到威吓作用。

Re-thread the collar

Regular Maintenance

Ensure Contact Points are not too tight on a weekly basis
Rinse the Contact Points with alcohol on a weekly basis
Check the dog's neck for irritation and wash the dog's neck on a weekly basis
Feel free to cut any additional Collar Strap material if it's too long for your dog

Frequently Asked Questions

How old does the dog have to be before using the system?
Your dog should have learned basic obedience commands such as, "sit" or "stay".
The Collar Receiver might be too large for dogs under 15 lbs.

Once my dog completes training and is been obeying my commands, will he
have to wear the collar?
Probably not. but you may try to reinforce training with the collar

Can I use the iPets rechargeable training collar with more than one dog?
Yes, you just need to purchase another Collar Receiver for the system

Is the Collar Receiver waterproof
Yes, but always ensure that the Rubber Cover seals the Charging Port

Can I replace the Collar receiver with another kind of collar?
No.

Can I attach a leash to the Collar Receiver?
No, this can result in pulling the Contact Points too tightly against the dog's neck
Attach a leash to a separate, nonmetallic collar or a harness. Ensure the
collar does not put pressure on the Contact Points

How long can I leave the Collar Receiver on my dog?
The design of the collar discourages constant wearing. We recommend not having
the dog wear the collar for more than 12 hours out of every 24-hour period.

Is the training system suitable for all dogs?
The collar is adjustable from length 5.7"(15cm)to 19.6"(50cm). if the dog's neck
circumference is smaller than 5.9, you will be forced to rethread the collar. if the
dog's neck circumference is larger than 22", this collar may not be suitable for
the dog. This collar is not suitable for dogs under 15lbs

重新安装项圈

定期维护

每周确保接触点和狗狗脖子不太紧

每周用酒精冲洗接触点

每周检查狗的脖子有没有受刺激伤痕，然后把狗的脖子洗干净

如果项圈带子太长，请剪裁成合适长度

常见问题

狗在使用这个系统之前必须多大？

你的狗应该学会基本的服从命令，如“坐下”或“呆着”。项圈对于 15lbs 的狗狗来说会太大。

一旦我的狗完成训练并服从我的命令，他必须戴项圈吗？

不一定。但是你可以试着用项圈来加强训练

我可以和一只以上的狗一起使用 IPETS 充电式训练项圈吗？

是的，您只需要购买另一个项圈接收器即可

接收器是防水的吗？

是的，但务必确保橡胶盖盖紧充电端口

我可以用另一种项圈替换项圈的接收器吗？

不

我能把牵引绳系在领口的接收器上吗？

不，这会导致接触点拉得太紧，抵住狗的脖子。将牵引绳系在一个单独的非金属项圈或安全带上。确保其他项圈不会对接触点增加压力

我能把项圈接收器放在我的狗身上多久？

项圈的设计不鼓励经常磨损。我们建议每隔 24 小时每次佩戴不超过 12 小时。

这个训练系统适合所有的狗吗？

项圈带的长度可从 5 英寸（15 厘米）调整到 19.6 英寸（50 厘米）。如果狗的脖子

圆周小于 5.9 英寸，你将被迫穿上项圈。如果狗的脖子周长大于 22 英寸，这个项圈可能不适合。

这个项圈不适合 15 磅以下的狗

Troubleshooting

My dog is not responding after successfully setting up the training system

Charge the Remote Transmitter and Collar Receiver for 6 hours, separately before first use

Ensure the Remote Transmitter and Collar Receiver are powered on

Check the intensity levels of vibration and static shock, making sure it is not set to 0

Ensure the Collar Receiver has sufficient power to operate

Check the collar to ensure it fits snugly against your dog's neck

If tested for all of the above and the dog is still not responding, please try re-pairing

the Remote Transmitter and Receiver Collar

The Remote Transmitter does not work

Check the battery status of the Remote Transmitter.

If the battery is low, please recharge the Remote Transmitter

My collar-receiver works great for some time, yet it does not work after charging

First, check if the receiver has been charged correctly. Check the “prepare the collar receiver” part of

the guide for the correct charging method.

Check if the receiver has been powered on

I want to test the Collar Receiver on myself, but it does not work

When testing the Collar Receiver with your hands, please touch the two electrodes simultaneously, as touching one electrode will not work

故障排除

成功地设置了训练系统后狗狗没有反应

首次使用前分别给遥控发射器和接收器充电 6 小时

确保远程发射器和接收器处于开启状态

检查振动和静态冲击的强度等级，确保设置不是 0

确保接收器有足够的功率进行操作

检查项圈，确保它贴合狗的脖子

如果测试结果显示狗狗仍然没有反应，请重新配对远程发射器和接收器

远程发送器不工作

检查远程发射器器的电池状态。

如果电池电量不足，请给充电

我的项圈接收器在一段时间内工作得很好，但充电后就不起作用了

首先，请参考说明书关于接收器充电部分说明检查接收器是否正确充电。

检查接收器是否已通电

我想在自己身上测试一下接收器，但它不起作用。

用手测试衣接收器时，手需要同时接触电极两端，只接触一个电极将不起作用

General Training Tips

Follow these tips on how to get the best out of your iPets Training Collar

(1) Make training sessions short and positive(between 10-15 minutes long for each session. This will enable the dog to keep its attention focused on the trainer.

(2) Train one dog at a time

(3) During the first initial training sessions, keep the dog in a familiar outdoor environment. Training in new locations may cause the dog to become distracted causing you to reinforce commands with the Collar Receiver more than necessary.

4) Use a long leash fastened to a non-metallic collar to help the dog's learning

Ensure the additional collar and leash does not interfere with the Contact Points on the Collar Receiver. Do not use the remote training collar without a long leash until your dog is fully trained

(5) More success will occur by teaching the dog a command first before trying to reinforce the command with the Remote Transmitter

(6) For basic obedience training, vibration is more useful

(7) Issue one obedience command at a time, this will reduce confusion and allow the dog to remain focused. Do not use the training system for commands that the dog has not learned

(8) During training, look for all the positive changes in the dog's behavior and remember to reinforce them promptly with ample praise and reward

(9) Avoid over-correcting your dog. Use as little remote correction as possible during the training process.

(10) When the dog has become apparently perplexed, shift the focus of the training by drawing the dog's attention to a command they have familiarity. Example

Tell the dog to sit and give abundant praise and encouragement on successful completion of the sit command.

(11) Do not use the training system to correct or eliminate forms of aggression or biting behavior. When the dog is showing signs of aggressive behavior, immediately contact a professional dog trainer in your local area

(12) Please keep in mind, that you should keep training sessions short and end every session on a high note. Stop training and play with the dog as soon the dog has accomplished a new level of proficiency

训练提示

为最佳训练效果请遵循以下技巧

(1) 训练时间短且积极 (每次 10-15 分钟)。 这将使狗保持其注意力集中在训犬员身上。

(2) 一次训练一只狗

(3) 第一次训练时, 将狗狗放在熟悉的户外环境中。在新的地点训练可能会使狗分心
这会使您在不必要的的情况下使用项圈接收器加强命令。

4) 用系在非金属项圈上的牵引绳帮助狗学习。确保附加的牵引绳不会干扰接收器上的接触点。

在没有长的牵引绳情况下请勿使用训练项圈, 除非狗狗完全训练好

(5) 在用远程发送器加强命令前, 先教狗一个命令, 然后再试着去做, 就会更容易些

(6) 对于基本服从训练的狗狗, 振动更有用。

(7) 一次发出一条服从命令, 这将减少混乱, 并确保狗狗保持注意力集中。 不要将训练系统用于还没学会训练的狗狗。

(8) 在训练过程中, 要注意狗狗行为的积极变化, 记住要及时给予他们充分的表扬和奖励

(9) 避免过度纠正你的狗。在培训过程中, 尽可能少地使用远程发射器。

(10) 当狗狗明显感到困惑时, 转移训练的重点。通过把狗的注意力吸引到一个熟悉的命令上。示例
让狗儿坐下来, 对成功做到的给予充分的赞扬和鼓励

(11) 不使用培训系统纠正或消除各种形式的侵犯行为, 或 咬人的行为。 当狗表现出攻击性行为的迹象时, 立即联系当地的专业训狗师

(12) 请记住, 你应该保持训练时间短而结束。每一次都很精彩。 停止训练, 尽情和狗玩耍, 效果已经达到了一个新的水平。

Common size of different dogs 不同狗的常规尺寸

Size	脖子 Neck (cm)	胸膛长度 Chest Measurement Length (cm)	背部长度 Back Length(cm)	品种 Type
Mini	20-22	25-30	19	Chihuahua, Yorkshire, Terrier
Small	20-24	29-36	23	Chihuahua, Yorkshire, Terrier
Medium	23-28	35-42	28	Maltese Dog, Shih Tzu
Large	27-31	41-47	31	Pekingese
Large	30-34	46-53	35	Schnauzer, English, Cocker Spaniel
Large	33-37	52-59	40	Beagle
Huge	43-48	76-84	60	Husky

47-52	88-97	65	Labrad or Retriever
52-62	92-110	70	Golden Retriever, Old English Sheepdog

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
