

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the back of a black electronic device (EUT) housing. The device features a large rectangular screen area, a small camera lens, and a keypad with several buttons. A ruler is placed horizontally below the device for scale, showing measurements in millimeters. The background is a light blue surface.
EUT Housing and Board View 2	 A photograph showing the front of the EUT housing, which is open, revealing the internal components. The components include a large yellow battery, a green printed circuit board (PCB) with various electronic components, and a black plastic frame. A ruler is placed horizontally below the device for scale, showing measurements in millimeters. The background is a light blue surface.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) component, labeled 'View 3', showing the solder side. The component features a central white rectangular area with a grid of 12 circular solder pads. To the left of this area is a smaller section with two larger circular pads. The component is placed on a blue textured surface next to a black L-shaped ruler with white millimeter markings. The ruler indicates the component is approximately 100 mm wide and 60 mm high.
Solder Board-Component View 4	 A photograph of the same green PCB component, labeled 'View 4', showing the opposite side. This side features a grid of 12 circular solder pads arranged in two rows of six. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The ruler indicates the component is approximately 100 mm wide and 60 mm high.
