

Appendix - Internal Photographs of EUT Constructional Details

Model: HS1210

Photo 1

Photo 2

The image shows a green printed circuit board (PCB) with various electronic components. Two large black electrolytic capacitors are visible on the left side. A central microcontroller is connected to several peripheral components, including a small display or sensor module on the right. The board is populated with numerous surface-mount components, including resistors, capacitors, and integrated circuits. A ruler is placed below the board for scale, indicating its dimensions.
