Ce guide de démarrage rapide contient déjà les instructions les plus essentielles en anglais, français, allemand, espagnol, vietnamien et chinois. Nous vous remercions de nous faire connaître le code QR en haut de page pour apprendre à utiliser votre appareil photo.

Esta Guía de inicio rápido ya contiene las instrucciones más básicas. Para una configuración más detallada, escanea el código QR de la parte superior para aprender a manejar tu cámara.

### IN THE BOX

\*For customers who have purchased a 2-pack of this product, each component below will be doubled (except the USB cable and the quick start guide).

VIRTAVO Camera 1

Type-C Cable 1

Quick Start Guide 1

Screw 1

Mounting Bracket 1

### PRODUCT OVERVIEW

Lens 1

Lens 2

Indicator light

Microphone

Speakers

Type-C slot

Reset button

MicroSD card slot (MicroSD card not included)

### SETTING UP

1. Download the Home V app and create an account.

2. Turn on the camera by plugging it in with the Type-C USB cable and powering it on.

3. Press the Reset button for about 5 seconds until you hear a "Dii" sound with the indicator light shows red and flashes rapidly.

4. Go to the Home V app, then add your device by tapping on the "+" button; follow the app instruction to finish the setup process.

Note: Camera setup only support 2.4GHz WiFi(802.11n) network is not supported.

### MOUNTING

1. Find the base plate of the bracket from the accessory box. Then, use the plate as a template to mark points on the ceiling or wall to assist with the drilling process.

2. Drill holes with a 1/4 inch drill bit.

3. Align the holes on the mounting plate with those in the ceiling. Insert the anchors into the holes (anchors are necessary for walls that are made out of hard materials such as concrete, brick, or stucco). Fix the screws with a screwdriver to fasten the mounting bracket to the ceiling or wall.

4. Place the camera vertically on the camera mounting bracket, rotate the camera 40° to secure it, and then adjust the angle of the camera until the desired viewing angle is set.

The camera can be placed on a table, or shelf, or can be mounted on a wall or a ceiling. Select a location and height where you can get the desired view, and the camera can reach a power outlet easily. Disconnect the camera from the power outlet before mounting.

Keep the camera away from anything (wall or window) that may obstruct the view. Do this to avoid infrared reflection which can have a negative impact on night vision performance.

## FCC Caution:

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.

## IC Caution:

English:

This device contains licence-exempt transmitter(s)/ receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

1. This device may not cause interference.
2. This device must accept any interference, including interference that may cause undesired operation of the device

This equipment should be installed and operated with minimum distance between 20cm the radiator your body

French:

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence.

L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage;
2. L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Cet équipement doit être installé et utilisé avec une distance minimale de 20 cm entre le radiateur et votre corps
