

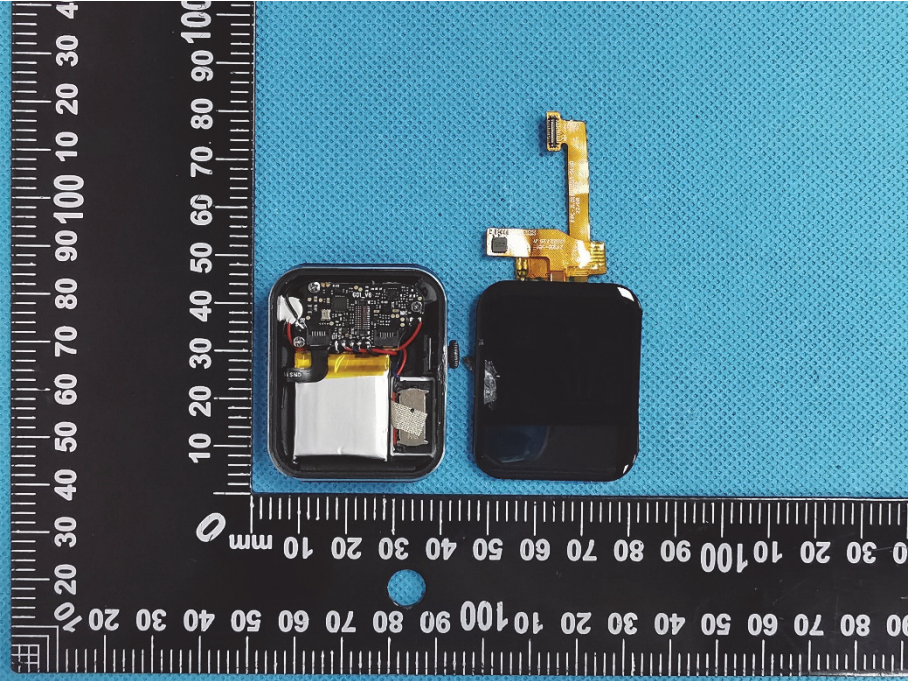

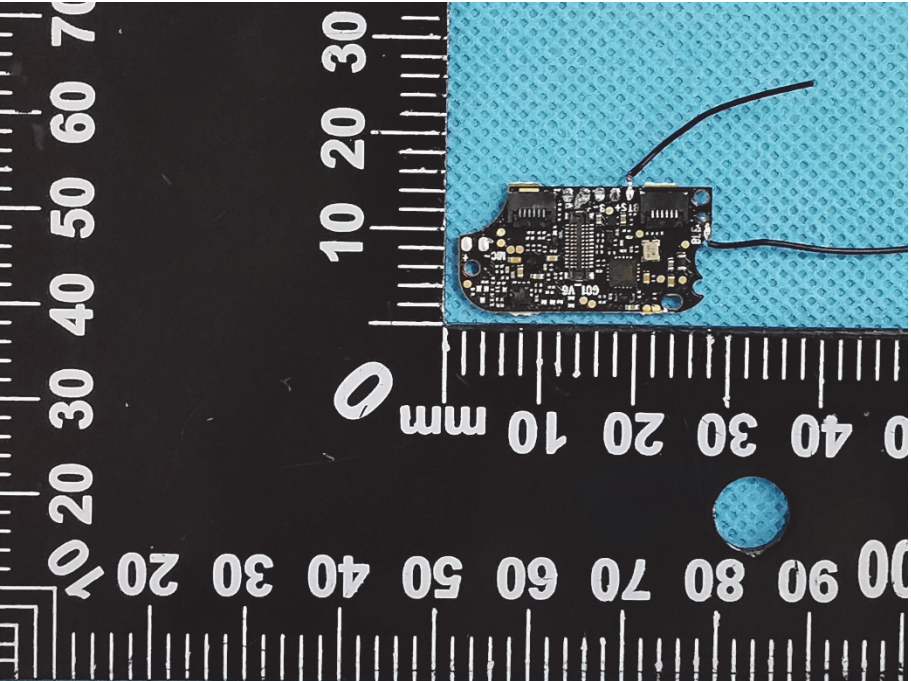

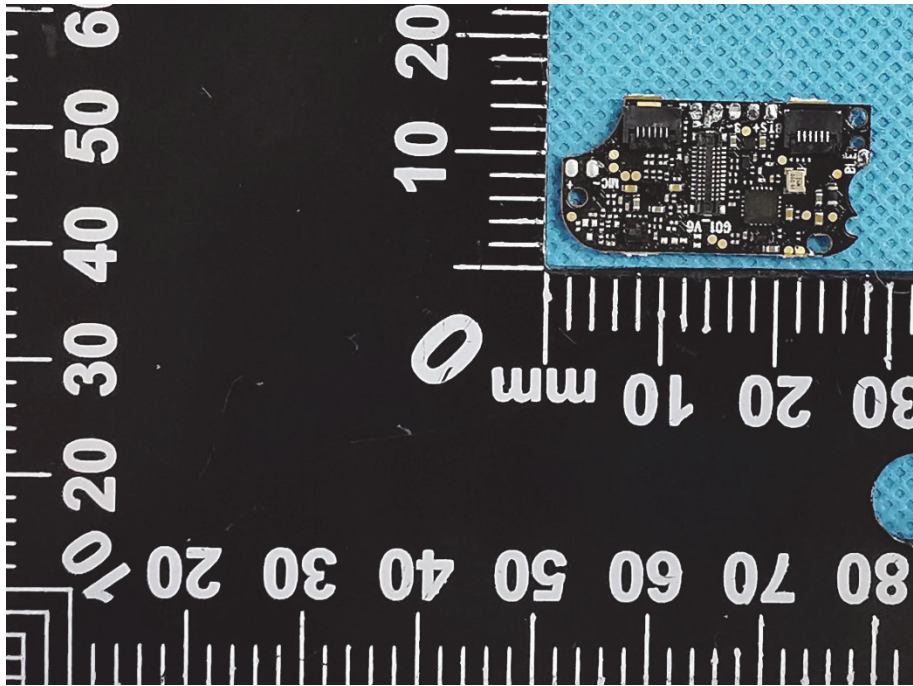

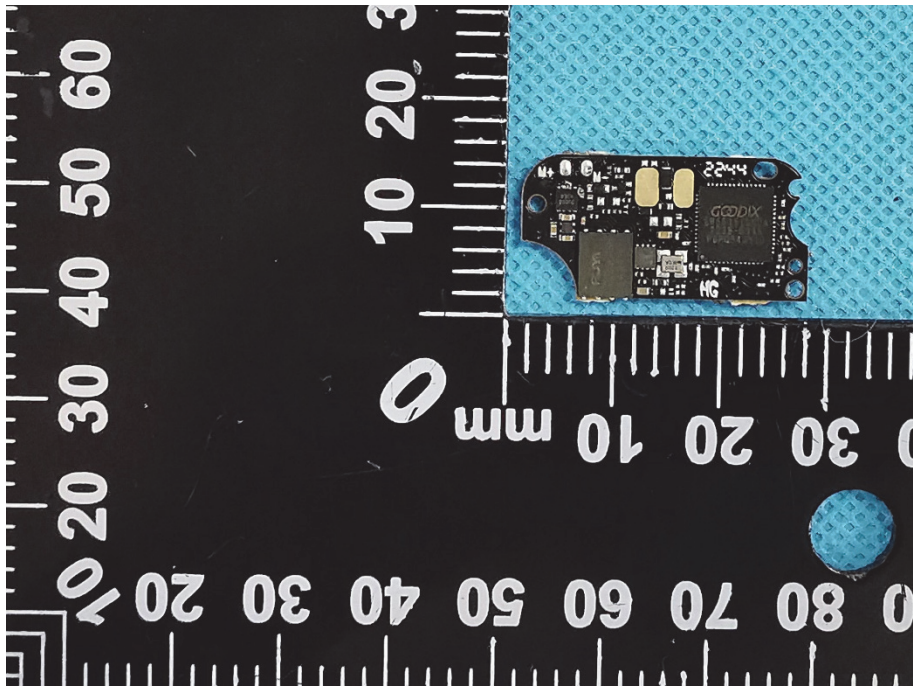

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

<p>EUT Housing and Board View 1</p>	 A photograph showing the internal components of an EUT housing. On the left is the housing with the battery and board visible. On the right is the board with a yellow flex cable attached. A ruler is placed below the components for scale, showing measurements in millimeters.
<p>Solder Board-Component View 1</p>	 A close-up photograph of a solder board component. The component is a small circuit board with various components and a thin wire. A ruler is placed below the component for scale, showing measurements in millimeters.

<p>Solder Board-Component View 2</p>	 A photograph of a small, rectangular printed circuit board (PCB) component, likely a microcontroller or sensor module, mounted on a blue textured surface. The component is positioned on a black background with a white millimeter ruler. The ruler shows markings from 0 to 60 mm horizontally and 0 to 20 mm vertically. The component has several pins along its edges and various surface components, including a large integrated circuit (IC) with the number '601' visible. The component is oriented vertically in the image.
<p>Solder Board-Component View 3</p>	 A photograph of the same PCB component as in View 2, but from a different perspective. The component is mounted on a blue textured surface and is positioned on a black background with a white millimeter ruler. The ruler shows markings from 0 to 60 mm horizontally and 0 to 30 mm vertically. The component is oriented vertically. A large IC with the number '601' is visible, along with other components like a capacitor and a resistor. The component is oriented vertically in the image.
