Justification for Re-use of Radio Test Results

We, Schneider Electric believe that the conducted signal test data on original reports provided by Quectel Wireless Solutions Company Limited (EG25G Mini PCIE, FCC ID: XMR201903EG25G approved on March 29, 2019, and IC: 10224A-201903EG25G) for manufacturer Quectel Wireless Solutions Company Limited can be re-used for the following reasons:

1. Applicant has built in the radio module according to the specific radio module integration guides.
2. No changes have been made on the radio module.
3. Re-test the conducted power for spot check verification, the radiated spurious emission and re-evaluated the RF Exposure.

A handwritten signature in black ink, appearing to read "A. Ndiaye".
