

User Manual

Thank you for choosing our products. Please kindly read this manual before use.

Specifications

Input: 5V 2A
Output:5W
Input: 9V 2A
Output:5W, 7.5W, 10W
Input: 12V 2A
Output:5W, 7.5W, 10W, 15W(max.)

Product Compatibility:Wireless charging devices which conform to Qi wireless charging standard

How it works

*Connection Instruction
*Connect power source.
*Put device on wireless charging area.

Notice

*It is normal for the product to get warm during charging process.
*Please remove from charger after it is fully charged to protect device and wireless charger.

Caution:

1. Do not store or use it in high temperature, humidity or dirty area.
2. Do not store or use it near strong magnetic fields.
3. Keep out of reach of children.
4. Do not expose to water or heavy dust. Keep it dry and clean.
5. Non-professional workers should not perform maintenance on this device without authorization.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
