

# Attestation Letter UNII

Date: 07/05/2023

We, Shenzhen MADIGI Electronic Technology Co.,Ltd , attest that this device under FCC ID:**2BAWU-MPC43** complies with device protocol requirements and operational restrictions: for (indoor client 6XD).

Indoor Client 6XD:

1. Device Protocol Attestation Statement:

- a) Statement for modules only: Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.
- b) Statement that the device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- c) Statement that this device will always initiate transmission under the control of a low-power indoor AP or subordinate except for brief transmissions before joining a network. These short messages will only occur if the client has detected an indoor AP or subordinate operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request
- d) Statement that transmissions will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant for equipment class 6XD.
- e) Statement for modules only: Contention-based protocol as demonstrated in the test report is permanently embedded in the module and is not host-dependent

Furthermore,

we fully understand this device is prohibited for control of or communications with unmanned aircraft systems, including drones. For any questions please contact me at your convenience.
