Note

- Please store and use this product in a room temperature environment;
 - Do not expose this product to rain or damp environments for a long time;
 - Do not throw to avoid product damage caused by falling;
 - Do not disassemble, repair, or modify this product on your own;
 - Please use a rated voltage power charger for charging;
 - Unauthorized disassembly will void the warranty.
- The device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) The device may not cause harmful interference, and (2) the device must accept any interference received, including interference from another licensed station.
- Any change in specifications and/or product appearance without prior notice is reserved. The manufacturer is not responsible for any damage caused by the use of this product.
- This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential environment. This device may cause interference if you do not follow the instructions that are provided in the manual, and you may experience interference with the operation of other electronic devices. If you experience such interference, you can avoid such interference by turning off the device.
- If this equipment does cause harmful interference to an electronic equipment, which is determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and other electronic equipment.
 - Connect the equipment into a different outlet.
 - Consult the equipment user manual for additional instructions.
