Maintenance and cleaning

Maintenance:

- Please take measures to prevent moisture, rodents, and pollution.
- Please charge regularly once a month if not used long time.
- For malfunctions, please contact technicians for repairs. Do not dismantle the product by yourself.
- After using, please put the product in a safe place. Please don't place heavy objects on it to prevent damage.
- If not used for a long time, please put the product and accessories in the packaging in a dry, ventilated environment to avoid dust. Don't expose them to sunlight to prevent fading or cracking.

Cleaning:

- Please clean and protect the product carefully to avoid damage and pollution.
- Please clean by a soft, damp sponge or cloth. Don't get the product wet.
- During the cleaning process, please prevent water or other liquids from entering the machine to avoid short-circuiting during use.
- Do not use abrasive agents, brushes, gasoline, kerosene, glass/furniture polish, paint thinner, or other corrosive chemical cleaners to clean the product, as these chemicals may cause damage.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The device has been evaluated to meet general RF exposure requirement.
This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.

FCC ID:2BB2B-FS2023

Warranty Card

Please keep this card properly. The company will take this card as the warranty certificate. Thank you for purchasing this product. The warranty period of this product is 12 months from the date of purchase. Please keep it properly and fill in detailed relevant information for warranty use.

Product model: _____ Date of purchase: _____

Dealer name: _____

User name: _____ Contact number: _____

Address: _____

Explain the reason: ☐ Return goods ☐ Exchange goods ☐ Guarantee

Warranty conditions

When warranty service is required, please show this card and fill in the relevant contents in detail. The company provides users with a 12-month warranty period from the date of purchase.

Warranty scope

The quality problem under normal use is not the damage caused by external damage, the company assumes the responsibility for repair. In principle, the users of the product during the warranty period do not need to pay fees. But due to human damage, the cost of testing or spare parts shall be charged as appropriate. Products beyond the warranty period will be charged.
(Fabric is not covered under warranty)

Warranty is not available under the following circumstances

Man-made damage: for example, due to damage caused improper use and incorrect use, abnormal wear and tear of appearance, falling damage, circuit destruction, ear cushion deformation, entry of foreign matters, moisture, alteration or tearing of sealing labels on products, and any other visible man-made damage, and other conditions, such as the user's own reasons (unauthorized disassembly and modification, unaffraid use, improper operation, water ingress, etc.)
Damage caused by force majeure, such as earthquake, flood, fire, typhoon or war.
