"I want to hear children's stories"

● Utilities

▶ Hello joke, little cloud, after waking up, you can say:

"Tell me a joke" "Let's have a funny joke"

Chapter III: Troubleshooting

1. Multiple connections and pairings are unsuccessful

Turn off the speaker and turn the phone back on, and make sure the connection name is: Astronaut **DODO** Smart Bluetooth Speaker

2. There is a stutter in music playback

- a. Whether the connection distance is out of range or there is an obstacle between the speaker and the mobile phone;
- b. Whether the mobile phone network is smooth and whether the speaker battery is low.

3. Play silently

Check that the speaker is the least sound (press and hold the plus or minus keys to adjust the sound volume)

4. Unable to turn on

Check whether there is power, plug in the **USB** charging cable, charge for 2 hours and try again.

5. AI intelligence cannot talk

Confirm whether Bluetooth is connected and whether the Xiaoyun Assistant **APP** is running in the background of the mobile phone

6. How to set the clock

After the speaker Bluetooth is connected to the mobile phone, and download the Xiaoyun Assistant **APP**, if the time cannot be synchronized, you can manually switch the clock mode to set

7. There is a crash

Find a needle and gently insert the audio port to reset and restart to solve the crash problem
