

UBT001 User Manual

Important tips: When pairing a device with Find My's app, the phone will link to the Apple's Server. Pairing may fail because of network problems. The following actions are recommended: Change the phone's network, such as switching between WiFi and mobile network.

01. Turn on the device

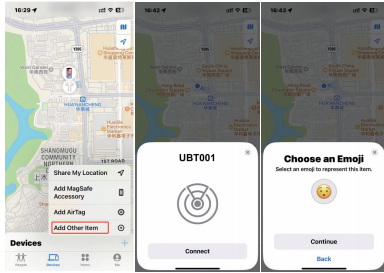

Press and hold the button for 3 seconds, and the device will beep and turn on. Double press the button. A chime will sound.
Note: To turn off, double-click the device first, then quickly press the button 5 times within 2 seconds, a long beep will sound.

02. Pair the device

Open the Find My app.
Make sure the Bluetooth is enabled.

Tap Items --> Add Other Item --> Other Supported Item --> Name the Item --> Choose an Emoji --> Play and stop sound

03. Locate Your UBT001

03.1 Find UBT001 When It's Nearby:

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your UBT001 from the list.
Tap "Play Sound" to make your UBT001 beep.
Tap "Stop Sound" to stop the beeps once you find.

03.2 Find UBT001 Location:

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your UBT001 from the list.
Your UBT001 location will appear on the Map with a time stamp of when the item was located. To navigate to the UBT001 location, tap "Directions" to open Apple Maps.

04. Notifications

04.1 Enabling "Notify When Left Behind":

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your UBT001 from the list.
Under "Notifications" enable the "Notify When Left Behind" toggle.
You will receive a notification when you leave your UBT001 behind and it's no longer in range of your device.

04.2 Enabling "Notify When Found":

Under "Notifications", enable the "Notify When Found" toggle.
When your UBT001 is seen by another Find My network device, you will receive a notification of its location.
Note: "Notify When Found" can only be activated when your UBT001 is out of range.

05. When Your UBT001 Is Lost

05.1 Enabling "Lost Mode":

Open Find My app and select the "Items" tab or open the Find Items app on your Apple Watch. Tap on your UBT001 from the list. Under "Lost Mode" tap "Enable". A screen detailing Lost Mode will pop up, tap "Continue". Enter your phone number or email address and tap "Next".
You may enter a message that will be shared with the person that finds your item. Tap "Activate" to enable "Lost Mode".
Note: When "Lost Mode" is enabled, "Notify When Found" is automatically enabled.
Note: When "Lost Mode" is enabled, your UBT001 is locked and cannot be paired to a new device.

06. Resetting UBT001

06.1 Remove The UBT001 From Find My App:

Open Find My app and select the "Items" tab.
Tap on your UBT001 from the list.
Please ensure "Lost Mode" is disabled.
Scroll to the bottom of the screen and tap "Remove Item".
A summary will open, tap "Remove" to confirm.

06.2 Connect Your UBT001

After successfully removing the UBT001 from Find My app, quickly press the button twice. A chime will sound. Then, press and hold the button for about 5 seconds after the second confirmation chime sound. Press and hold again for another 3 seconds until you hear a prompt sound to reset the device.

The UBT001 is now reset and ready to be paired to a new Apple ID.

07. Extras

07.1 Replace The Battery:

Carefully open the shell along the gap in the middle of the UBT001.
Replace the battery with a new CR2032 battery, with the positive side facing up (with the text side facing up).

Carefully close the UBT001 by aligning the top holes on both sides

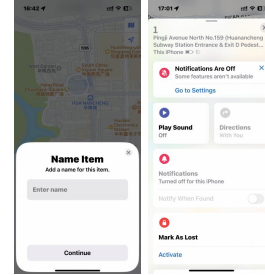

07.2 Unwanted tracking:

If any Find My network accessory separated from its owner is seen moving with you over time, you will be notified in one of two ways:

- If you have an iPhone, iPad®, Find My will send a notification to your Apple device. This feature is available on iOS or iPad OS 14.5 or later.
- If you don't have an iOS device or a smartphone, a Find My network accessory that is it with its owner for a period of time will emit a sound when it's moved.

These features were created specifically to discourage people from trying to track you without your knowledge.

08. About Apple Find My

The Apple Find My network provides an easy, secure way to locate compatible personal items using the Find My app on your iPhone, iPad, Mac®, or the Find Items app on Apple Watch.
Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet.

09. The Fine Print

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Note: The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance, such modifications could void the user's authority to operate the equipment.

This device has been evaluated to meet general RF exposure requirement.
This equipment complies with FCC's RF radiation exposure limits set forth for an uncontrolled environment. This device and its antenna(s) must not be co-located or conjunction with any other antenna or transmitter.
