FAQ

1. Can two mobile phones be connected to one camera at the same time?
(A camera can only be added by one account, and multiple mobile phones can be viewed by sharing the device or logging in to the same account through multiple mobile phones)
2. Can I connect to the camera without WiFi?
(No, the camera needs to be connected to WiFi network to use)
3. Check the playback prompt "SD card not detected"?
(Check if the memory card is correctly inserted into the camera)
4. How to change the network connection?
(Long press the camera reset button until the "reset successful" is issued to restart and then connect)
5. The camera prompts to be offline?
(Check whether the WiFi network is normal, check whether the power supply is working properly)

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
