

Product manual

Gulanxo

Air conduction Bluetooth earphones

statement

First of all, thank you for using our company's products! Please read this manual carefully before use to use this product correctly. For better service, the content of this user manual may change. Any weight changes due to the performance and functionality of the product will not be notified separately.

Product Introduction

The air conduction earphones are equipped with Bluetooth 5.3 chips and are compatible with mainstream Bluetooth devices such as mobile phones and tablets. With directional conduction technology, they achieve high-quality sound quality at CD level, long-lasting battery life, dual speakers on both sides, open directional pronunciation, and unobstructed reception of external sound. They can always access environmental information, ensuring safety, intelligence, health, and convenience.

Packaging List

Host, charging cable, user manual.

Product parameters

Product brand: Gulanxo

Product model: T6

Product Name: Air Conductive Bluetooth Earphones

Headphone transmission method: air directional transmission

Sound channel: dual speaker stereo

Product weight: 30g

Bluetooth version: 5.3

Bluetooth distance: about 10 meters, automatically shuts down after leaving the effective distance for 10 minutes

Music endurance: about 15 hours

Call endurance: about 17 hours

Theoretical standby time: 200h

Battery capacity: 200mAh

Charging time: approximately 1.5-2 hours

Charging method: Type-C

Charging input MAX: 1000mA

instructions

(1) On/Off key

1. Power on: Press and hold the volume button for 3 seconds, and the red and blue lights will flash alternately waiting for connection.

2. Shutdown: Long press and hold the volume button for 3 seconds

(2) Music status

1. When playing music, click "+" to increase the volume and "-" to decrease the volume

Double click "+" to play the next track, double click "-" to play the previous track

2. Click the Touch switch to pause the song when the music is in use, and click the Touch switch again to continue playing the song

(3) Incoming call mode

1. Click '+' to answer the call

2. Click '-' to reject the call, click '-' to hang up during the call

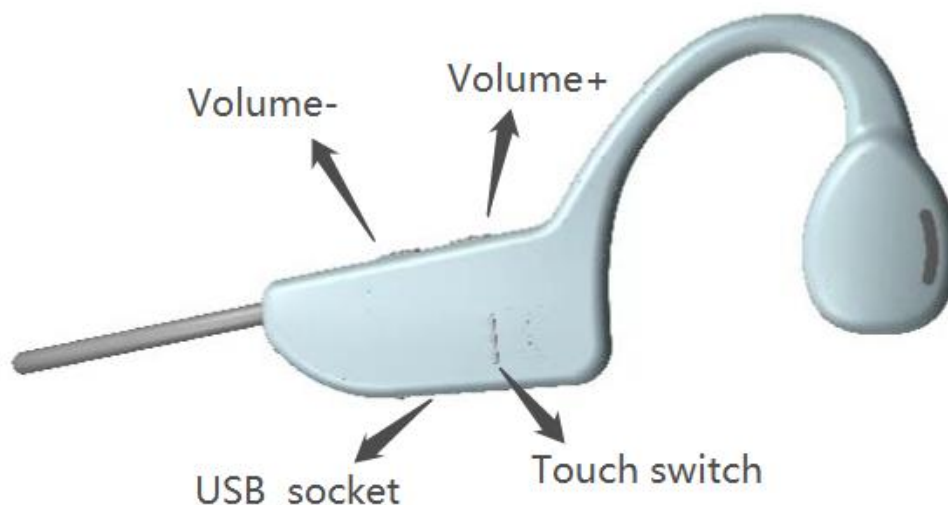

(4) Other functions

functions such as sending text messages, WeChat, making WeChat calls, making video calls, listening to music, navigation, asking about the weather, stocks, listening to jokes, translating, recording, taking photos, recording, setting an alarm clock, and so on. Once again, by continuously clicking the volume button three times, you can exit the voice assistant.

(5) LED light prompt

1. Charging: The red light remains on for a long time
2. Fully charged: the blue light remains on for a long time
3. Waiting for link: alternating blue and white lights flashing
4. Successfully connected: Blue light flashing slowly

reminder

Charging time: 1.5-2 hours

When not in use for a long time, charge the battery at least once every month.

Tips

1. Before using this product, please read the manual carefully and keep it.
2. For first use, please fully charge this product first.
3. If the product does not charge for a long period of time (more than two weeks), please charge it before use.
4. Please use a certified DC5V-1A adapter from a reputable manufacturer.
5. Repeated charging and discharging can affect the performance of the battery over time, which is a normal phenomenon.

warning

1. Do not dismantle, repair or modify this product for any reason, as it may cause fire, electronic breakdown, or even complete damage to the product.
2. Do not place the device in an environment with low or high

temperatures (below 0C or above 45 ° C).

3. Do not touch or even immerse the product in liquid.

4. Do not expose the product to prolonged sunlight, as it may deform, age, or break.

5. Do not place the magnetic suction end of the charging line close to metal objects to prevent short circuit hazards caused by magnetic suction of metal objects.

FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class

B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to

radio or television

reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

Important safety information

1. Before using this product, please read all safety information to ensure correct and safe use.
2. Using power supplies, chargers, or batteries that are not approved by the original manufacturer may cause fire, explosion, or other hazards.
3. Please use accessories approved by this manufacturer and compatible with this model of equipment.
4. Please use this product within the temperature range of 0 ° C-35 ° C and store the equipment and its accessories within the temperature range of -20 ° C-45 ° C. When the ambient temperature is too high or too low, it may cause equipment malfunction.
5. The device uses a non detachable built-in battery. Do not replace the battery yourself to avoid damaging the battery or device. The battery can only be replaced by an authorized service center.
6. If the charging is complete, please disconnect the charger from this device and unplug it from the power socket. Do not exceed 10 hours of continuous charging time.
7. Please do not dispose of old batteries in household waste.

Improper disposal of batteries may cause them to catch fire and explode. Please comply with local regulations when handling this device, batteries, and other accessories.

8. The battery is prohibited from disassembly, impact, squeezing, or being thrown into fire. If severe expansion occurs, please do not continue to use it.

9. Do not short circuit the metal contacts of the battery, as this may cause a short circuit hazard and prevent personal injury such as burns caused by overheating of the battery.

10. Do not place in a high-temperature environment, as overheating the battery may cause an explosion.

11. Do not disassemble, collide, or squeeze the battery to avoid liquid leakage, overheating, or explosion.

12. Do not throw the battery into a fire, as it may cause a fire or explosion.

13. If the battery experiences severe expansion, do not continue to use it.

14. Please keep the equipment dry.

15. If the equipment or any other components cannot function properly, please do not repair any products on your own.

16. When connecting other devices, please refer to the connection method in the user manual and do not connect

devices that do not match at will.

⚠ To avoid hearing loss, do not use high volume for extended periods of time.

⚠ warning

1. It is strictly prohibited to use equipment in environments such as gas stations, oil depots, chemical warehouses, etc. where flammable and explosive oil and gas or chemicals are stored.
2. Do not use this equipment in hospital operating rooms, emergency rooms, intensive care departments, and other places; To avoid interfering with the operation of medical instruments, please stay away from medical devices such as pacemakers, hearing aids, cochlear implants, etc. when using this device. Please maintain a distance of more than 15 centimeters between this device and the pacemaker.
3. If you want to use this device near personal medical devices, please consult a physician and device manufacturer.
4. Please comply with all safety warnings and regulations regarding the use of this device while driving.
5. Do not make calls while charging.
6. Do not use the charger in high temperature areas such as the bathroom, as it may cause electric shock, personal injury, fire, and

damage to the charger.

Please comply with relevant legal regulations that prohibit use in any environment.

Product warranty certificate

During the product warranty period, if there are performance faults that are not caused by human factors, you can enjoy the following three guarantees:

Within 7 days from the date of receipt, if the product experiences performance faults that are not caused by human factors, users can choose to refund or exchange the payment at once, or replace the same model and specification of the product.

Within 15 days from the date of receipt, if the product experiences performance faults that are not caused by human factors, users can choose to replace it with products of the same model and specification.

Within one year from the date of receipt, users can send the product to the merchant for repair, except for performance faults that are not caused by human factors.

The following situations (but not limited to) are not within the scope of the "Three Guarantees" service:

Unauthorized maintenance, misuse, collision, negligence, abuse, liquid ingress, accidents, modifications; Or tear or alter product labels or seals.

- Exceeding the validity period of the "Three Guarantees"

service.

- Damage caused by force majeure such as fires, floods, lightning strikes, etc.

- Product performance failures caused by human factors.

Damage caused by failure to use according to the product manual requirements.
