### TIPS

1. Make sure the headset and the connected device are within a valid connection range and there are not too many obstacles that interfere with the signal;
2. It is normal for the headset to be disconnected occasionally. Just like WiFi, occasionally the connection is unstable. It may be due to interference in signal transmission. Please wait a moment or change the location to resolve;
3. When the headset cannot be connected to the device, please check whether the headset has power or is connected to other devices;
4. Please fully charge the Headphone once a month. If the Headphone is not used for a long time, the battery of the Headphones may be damaged;
5. The sound insulation and sound leakage of headphones are related to the way of wearing the headphones and the volume of the headphones. You can adjust the wearing angle and degree of ear wrapping of the headphones in time according to the actual comfort of use. Please close the ear/head foam part of the headphone as much as possible.
6. Please use a standard-compliant charging head to charge the headset.
7. Do not wear the product for bathing, or use it in the rain, and do not soak the product in water. After each normal use, it is recommended to dry the sweat or stains on the headphone with a dry cloth, paper towel, etc., and then store it.
