Find Magnetic Car Charger

Model: ZY-WLC-PSD
Input: 5V/2A, 9V/2.2A, 12V/1.65A
Output: 15W Max

Setting Up Your iPhone

Compatibility
The car charger is only compatible with iPhone 12 series or later phones running iOS 14.5 or later with Two-Factor Authentication turned on.

1. Turn on Two-Factor Authentication for your Apple ID
On your iPhone: Go to **Settings** > your name > **Password & Security**. Tap **Turn On Two-Factor Authentication**. Then tap **Continue** and follow the onscreen instructions.
On your Mac: choose Apple menu > **System Settings** (or **System Preferences**), then click on your name (or Apple ID), click **Password & Security**, next to **Two-factor Authentication**, click **Turn On** and follow the onscreen instructions.
On the web: Go to appleid.apple.com and sign in using your Apple ID. Answer your security questions, then tap **Continue**. Tap **Continue** when you see a prompt to update account security. Then tap **Update Account Security** and follow the onscreen instructions.

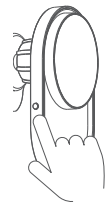

2. Turn on Find My
A. Go to **Settings**.
B. Tap your name, then tap **Find My**.
C. Tap **Find My iPhone** and turn on **Find My iPhone**.

3. Turn on Bluetooth

4. Connect to a stable Wi-Fi or cellular network

5. Turn on Location Services
Go to **Settings** > **Privacy & Security** > **Location Services** > turn on **Location Services**.

Getting Started

Power on
Short press the car charger's power button **once**, and a beep will sound to indicate that it is turned on.

Power off
To power off, short press the power button **twice**, then **long press** the power button. When you hear a beep, it indicates that your "car charger" has been turned off. If your car charger is not paired within 10 minutes, you will hear a beep and it will automatically power off. Power on to continue pairing.

Factory reset
To reset, short press the power button **4 times**, then **long press** the power button until you hear a beep, it indicates the factory reset has been completed.

Locating Your Car Charger

Locate your car charger via the map

1. Open the Find My app.
2. Tap the **Items** tab.
3. Select your car charger in the **Items** list.
4. Tap **Directions** to open the location of your car charger and get directions in the Maps app.

Play sound alert

1. Open the Find My app.
2. Tap the **Items** tab.
3. Select your car charger in the **Items** list and tap **Play Sound***.

* The sound alert will only play if your iPhone is connected to a network, and your car charger is in Bluetooth range of your iPhone (approx. 160/50m).

Set up Notify When Left Behind

If your car charger is not in Bluetooth range of your iPhone for a period of time, you will receive a notification that your car charger has been lost (if you set up a name, the name will be displayed, otherwise it will show car charger).

1. Open the Find My app.
2. Tap the **Items** tab.
3. Select your car charger in the **Items** list and scroll down.
4. Under **Notifications**, tap **Notify When Left Behind** and turn on.

Mark your car charger as lost

1. Open the Find My app.
2. Tap the **Items** tab.
3. Select your car charger in the **Items** list and scroll down.
4. Ensure **Notify When Left Behind** is turned on.
5. Under **Lost Mode**, tap **Enable**, then tap **Continue**.
6. Enter your phone number/email address so that the finder of your car charger can contact you, then tap **Activate**.

背面

Changing the Name of Your Car Charger

1. Open the Find My app and tap the **Items** tab.
2. Select your car charger in the **Items** list.
3. Scroll down and tap **Rename Item**.
4. Select a name from the list or select **Custom Name**.
5. For Custom Name, input a name and select an emoji.
6. Tap **Done**.

- Keep a distance of at least 20 cm between implanted medical devices (pacemakers, cochlear implants, etc.) and the product so as to avoid potential interference to the medical devices.
- Do not allow children to touch or play with this product to avoid unnecessary accidents.
- Please unplug the car charger from the car's cigarette lighter or power port when it will not be used for a long time.
- The equipment should be installed at least 20 cm (7.9 in.) from your body or nearby persons.

Package Includes

- Magnetic car charger x 1pc
- USB to C Cable x 1pc
- User Manual x 1pc

Limited Warranty

Thanks you for your purchase of ZYRON products. ZYRON warrants that the product is at the time of its original purchase free of defects in workmanship and material. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. This Limited Warranty for the product shall last for twenty four (24) months from the date of original purchase. The original proof of purchase or invoice must be presented at the time you require warranty service or such warranty will be voided. This limited warranty is valid only if the product is used for the purpose for which it was designed. It does not apply to damage or loss caused by negligence; physical abuse, misuse, accident, exposure to moisture; dampness or extreme thermal; unauthorized modifications; unauthorized opening or repair; forces of nature; or other actions beyond the reasonable control of ZYRON. The customer shall be responsible for sending the defective product to and collecting the repaired or replaced product from the service centre. To claim warranty, please contact us via support@zyrontech.com.au or visit <https://zyrontech.com.au>

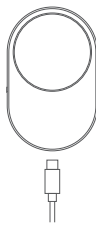

Removing Your Car Charger

Removing your car charger from your Apple ID will allow it to be activated and used by another person.

1. Ensure that your car charger is connected to your iPhone*.
2. Open the Find My app.
3. In the **Items** tab, tap the car charger.
4. Tap **Remove Item**, tap **Remove** and confirm to remove.

* If not connected when removing your car charger from your Apple ID, it will no longer be discoverable and you will need to perform a factory reset before creating a new connection (see "Getting Started > Factory reset" above).

Charging Your Car Charger

Use the included cable to charge.
LED ice blue light: Standby
LED green light: Charging
Blue light flashing: Mobile phone location in deviation or over temperature protection or trigger FOD

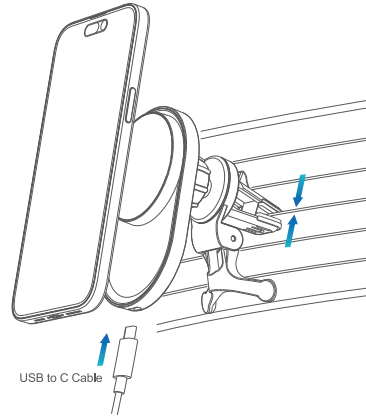

The Apple Find My network provides an easy, secure way to locate compatible personal items using the Find My app on your iPhone, iPad, Mac, or the Find Items app on Apple Watch.

To use the Apple Find My app to locate this item, the latest version of iOS, iPadOS, or macOS is recommended. The Find Items app on Apple Watch requires the latest version of watchOS.

Use of the Works with Apple badge means that a product has been designed to work specifically with the technology identified in the badge and has been certified by the product manufacturer to meet Apple Find My network product specifications and requirements. Apple is not responsible for the operation of this device or use of this product or its compliance with safety and regulatory standards.

Apple, Apple Find My, Apple Watch, Find My, iPhone, iPad, iPadOS, Mac, macOS and watchOS are trademarks of Apple Inc. iOS is a trademark or registered trademark of Cisco in the U.S. and other countries and is used under license.

How To Use

For the fastest and safest charge, use an Zyrion cable, your device's original cable or another certified cable (such as MFi).

The wireless charging function is not powered by the battery, but by the charging cable, and the product does not have a power bank function.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF exposure for WPT

To maintain compliance with FCC ' s RF Exposure guidelines, This equipment should be installed and operated with minimum distance between 20cm the radiator your body:Use only the supplied antenna.

RF exposure for BT

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
