### 4. Product safety information

Please read all tips and warnings before using this product. Improper use may cause damage to the product or personal safety.

- The product contains batteries. Please do not expose this product to strong sunlight or overheating environments such as stoves. Do not store this product in high temperature, strong light or strong magnetic environments.
- 2. The product should not be placed in harsh environments such as near fire sources. It is prohibited to knock, throw, trample, squeeze or throw it into fire; if it bulges, do not use it.
- 3. Product operating temperature: below 45°C.
- 4. Please do not violate the instruction manual and use it inappropriately, causing damage to the product or endangering personal and property safety. You will be responsible for the consequences.
- 5. Non-professionals are strictly prohibited from disassembling this product, otherwise it may cause a fire or even completely damage the product.
- 6. Do not use electrical appliances that exceed the current load of this product. If the load is exceeded, it will automatically stop working.
- Please clean the charging contacts of the earphones regularly with a clean cotton cloth to avoid the inability to charge or turn on the earphones due to long-term uncleaning.
- 8. Do not place this product in water (or in a washing machine). If the product gets water, please wait for it to dry naturally before using it.

Keep moisture-proof bags, deodorizing beads and other accessories out of the
reach of children to prevent accidental ingestion; do not place them in water to
avoid violent chemical reactions that may affect personal and property safety. You
will be responsible for the consequences.

#### 6、Warranty Policy

- 1. Returns without reason within 7 days from the date of receipt, and free exchange within 15 days (such as Tmall, JD.com, etc.). The postage for returns and exchanges due to non-quality problems must be borne by the consumer, and the postage for re-delivery must be borne by the merchant. If you have any invoices and gifts, please send them back together.
- If you purchase at a local store, you can go to the local after-sales service center to enjoy the 15-day replacement service provided by our company from the date of

purchase. If there is no local after-sales service center, you can entrust a dealer to provide replacement service. 3 . The product you purchased, after being tested and confirmed by our company, can enjoy a 12-month warranty (due to product quality). The service method is to send it for repair by the customer; the random accessories are consumables and are not covered by the warranty.

Non-warranty regulations 1. Unauthorized repair, misuse, collision, neglect, abuse, accident, alteration, or tearing of altered labels and anti-counterfeiting marks;

2. The original serial number label of the product has been altered, replaced, torn,

- etc.;

  3. The model number and serial number on the warranty certificate do not match
- the actual product;
- The product exceeds the warranty period specified by the company;
   Appearance damage caused by abnormal use;
- 6. The outer packaging and included gifts, the services and additional configurations and gifts promised by the sales staff in addition to the products;
- Improper storage: If the product is exposed to abnormal temperatures for a long time, performance damage caused by the temperature environment;
- 8. Product damage caused by failure to follow the operating instructions, misuse, unauthorized modification, or damage caused by force majeure.

Warranty record form Dear user, thank you very much for using Yinbeiqi products.

Please fill it out carefully and keep it properly.

The company reserves the right to interpret the after-sales service regulations for this product.

Implementation standard: GB 4943. 1-2022 《Audio, video, information technology and communication technology equipment Part 1: Safety requirements》

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's

authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no quarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or

television reception,

which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
