YK-03 MANUAL

www.yrkr.cn

SPECIFICATIONS

1. Bluetooth version is 5.3
2. The frequency is 2.4 GHz.
3. Bluetooth range is about 10 meters.
4. The battery capacity of charging case is 180 mAh and the earbud battery capacity is 30 mAh.

EARPHONES USE STEPS

1. Take out the earbuds to start. The red light and the blue light of two earbuds are shining alternately. When the two earbuds are paired successfully, the red and the blue lights of only one earbud are shining slowly.
2. Pair with Bluetooth devices: Open the phone or other devices' Bluetooth settings, search for the Bluetooth name "YK-03", click to connect Bluetooth. When the earbuds are paired with the devices, the lights are off.

EARPHONES FUNCTION DESCRIPTION

1. The left earbud and the right earbud all have a multifunctional button.

Press once to play, pause or answer. Press for two seconds to refuse phone call.

Press the button of the left earbud twice to skip back and press the right one twice to skip forward.

Press the button of the left earbud three times to turn down the volume and press the right one three times to turn up the volume.

Press the button for two seconds to start voice assistant.

Press the button for five seconds to make the earbuds power off.

2. If the earbuds have paired with the device before, then they can be connected once the earbuds are power on again.

3. Put the earbuds into the charging case to enter the charging mode and activate the digital display of the charging case. The red light of earbuds are shining. When full charging, the lights and the digital display will be off.

4. When charging the charging case, the digital display of the charging case will be activated.

INSTRUCTIONS

1. Please do not overuse the earbuds or put it under heavy pressure.
2. Keep away from wet and heat.
3. Keep away from Wi-Fi, router or other high frequency transmitting equipment to prevent interruption of signal receiving.
4. Please use the earbuds under its working range and the effect would be better if there is no obstacle between the connected devices.
5. The earbuds can be connected with any devices with Bluetooth function.

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
