The Company reserves the right to make modifications on print errors or update specifications in this guide without prior notice.

1. General Information

1.1 Profile and Safety Precaution

Please read this pamphlet carefully in order to make your Tablet PC in perfect condition.

Our company may change this mobile Tablet PC without prior written notice and reserves the final right to interpret the performance of this mobile Tablet PC.

Due to different software and network operators, display on your Tablet PC may be different, refer to your Tablet PC for details.

Please read the following guidelines regarding the use of your Tablet PC. Not following them maybe dangerous or illegal.

1.2 Safety warning and Attentions

Safety warning

> ROAD SAFETY COMES FIRST

Do not use a hand-held Tablet PC while driving. Use hands-free fittings when calls are unavoidable while driving. In some countries, dialing or receiving calls while driving is illegal!

> SWITCH OFF IN AIRCRAFT

Wireless devices can cause interference in aircraft. Using a mobile Tablet PC in flight is illegal and risky.

Please make sure that your mobile Tablet PC is powered off in flight.

> SWITCH OFF BEFORE ENTERING RISKY AREAS

Strictly observe the relevant laws, codes, and regulations on the use of mobile Tablet PCs in risky areas. Turn off your mobile Tablet PC before entering a place susceptible to explosion, such as an oil station, oil tank, chemical plant or a place where a blasting process is under way.

> OBSERVE ALL SPECIAL REGULATIONS

Follow any special regulations in force in any area such as hospitals and always switch off your Tablet PC whenever it is forbidden to use it or, when it may cause interference or danger. Properly use your mobile Tablet PC near medical apparatuses, such as pacemakers, hearing aids and some other electronic medical devices, as it may cause interference to such apparatuses.

> INTERFERENCE

The conversation quality of any mobile Tablet PC may be affected by radio interference. An antenna is built inside the mobile Tablet PC and located below the microTablet PC. Do not touch the antenna area during a conversation, lest that the conversation quality deteriorate.

> QUALIFIED SERVICE

Only qualified personnel may install or repair Tablet PC equipment. Installing or repairing the mobile Tablet PC on your own may bring great danger and violates the warranty rules.

➤ **ACCESSORIES AND BATTERIES**

Use only approved accessories and batteries.

➤ **USE SENSIBLY**

Use only in a normal and proper manner.

➤ **EMERGENCY CALLS**

Ensure the Tablet PC is switched on and in service, enter the emergency number, e.g. 100, then press the Dial key. Give your location and state your situation briefly. Do not end the call until told to do so.

Note: Just like all other mobile Tablet PCs, this mobile Tablet PC does not necessarily support all the features described in this manual due to network or radio transmission problems. Some networks even do not support the emergency call service. Therefore, do not rely solely on the mobile Tablet PC for critical communications such as first aid. Please consult the local network operator.

Precautions

This mobile Tablet PC is well designed with fine art. Please exercise special care when using it. The following suggestions will help your mobile Tablet PC survive the warranty period and extend its service life:

- Keep the mobile Tablet PC and all its fittings beyond children's reach.
- Keep the mobile Tablet PC dry. Keep away from rain, moisture, liquid or other substances that may corrode electronic circuits.
- Do not use or store the mobile Tablet PC in dusty places, lest that active parts of the mobile Tablet PC be damaged.
- Do not store the mobile Tablet PC in a high-temperature place. High temperature will shorten the life of electronic circuits and damage the battery and some plastic parts.
- Do not store the mobile Tablet PC in a chilly place. Otherwise, moistures will be formed inside the mobile Tablet PC to damage electronic circuits when the mobile Tablet PC is moved to a constant temperature place.
- Do not throw, knock or shock the mobile Tablet PC, as that will destroy the internal circuits and high-precision components of the mobile Tablet PC.

2. Your Tablet PC

2.1 Tablet PC overview

2.2 Functions of Keys

The mobile Tablet PC provides the following keys:

- ◆ Power key
Power key situates at the right side of the Tablet PC. While using the Tablet PC, you can press this key to lock screen; if you press and hold this key, a Tablet PC-options dialog would pop out. Here, you can select to adjust the profile mode, power off or turn on/off airplane mode.
- ◆ Volume key
Volume key situates at the right side of the Tablet PC. You can press it to adjust ringer volume.

2.3 Functions of icons

- ◆ Menu icon
Touch this icon to access options of a selected function;
- ◆ Home icon
Touch it to open home screen. If you're viewing the left or right extended Home screen, touch it can enter the home screen.
- ◆ Back icon
Touch this icon to return to the previous screen;

3. Getting started

3.1 Installing the Battery

- ◆ Hold the power key for a while and select power off to power off the mobile Tablet PC
- ◆ Take the back cover away.
- ◆ With the metallic contacts of the battery facing the metallic contacts in the battery slot, install the battery.

Note:

The SD card is a miniature object. Keep it out of the reach of children for avoid children swallow it!

3.2 Charging the Battery

- ◆ Your mobile Tablet PC can monitor and display the battery state.
- ◆ Normally the remaining energy of the battery is indicated by the battery level icon at the upper right corner of the display screen.
- ◆ When the battery energy is insufficient, the mobile Tablet PC prompts "Battery low".
Using a travel adapter:
 - ◆ Install the battery into the mobile Tablet PC before charging the battery.
 - ◆ Connect the adapter of the travel charger with the charging slot in the mobile Tablet PC. Ensure that the adapter is fully inserted.
 - ◆ Insert the plug of the travel charger to an appropriate power outlet.
 - ◆ During the charging, the battery level grids in the battery icon keep flickering till the battery is fully charged.
 - ◆ The battery icon does no longer flicker when the charging process ends.

Note:

Ensure that the plug of the charger, the plug of the earTablet PC, and the plug of the USB cable are inserted in the right direction. Inserting them in a wrong direction may cause charging failure or other problems.

Before the charging, ensure that the standard voltage and frequency of the local mains supply match the rated voltage and power of the travel charger.

Optimizing battery life

You can extend your battery's life between charges by turning off features that you don't need. You can also monitor how applications and system resources consume battery power.

To guarantee the optimal performance of your battery, please stick to the following rules:

- ◆ Turn off radios that you aren't using. If you aren't using WI-FI, Bluetooth, or GPRS, use the Setting application to turn them off.
- ◆ Turn down screen brightness and set a shorter screen timeout.
- ◆ If you don't need them, turn off automatic syncing for Gmail, Calendar, Contacts, and other applications.

Note: On the Home screen, press Menu icon and touch Settings > More > Battery .The Battery Use screen lists the applications that have been using the battery,from greatest to least battery use.The top of the screen displays the time since you were last connected to a charger or, if you're currently connected to one, how long you were running on battery power before you connected to a charger.Then each application or service that used battery power during that time is displayed, in order of the amount of power they used.Touch an application in the Battery Use screen to learn details about its power consumption.Different applications offer different kinds of information.

3.3 Linking to the Networks and devices

Your Tablet PC can connect to a variety of networks and devices, including mobile networks for voice and data transmission, WI-FI data networks,and Bluetooth devices, such as headsets. You can also connect your Tablet PC to a computer, to transfer files from your Tablet PC's SD card and share your Tablet PC's mobile data connection via USB.

Connecting to WI-FI networks

WI-FI is a wireless networking technology that can provide Internet access at distances of up to 100 meters, depending on the WI-FI router and your surroundings.

Touch Settings>Network>WI-FI. Check WI-FI to turn it on. The Tablet PC scans for available WI-FI networks and displays the names of those it finds. Secured networks are indicated with a Lock icon.

Note: If the Tablet PC finds a network that you connected to previously, it connects to it automatically.

Touch a network to connect to it. If the network is open, you are prompted to confirm that you want to connect to that network by touching Connect. If the network is secured, you're prompted to enter a password or other credentials.

Connecting to Bluetooth devices

Bluetooth is a short-range wireless communications technology that devices can use to transfer information over a distance of about 8 meters. The most common Bluetooth devices are headsets, Tablet PCs for making calls or listening to music, hands-free kits for cars, and other portable devices, including laptops and cell phones.

Touch Settings > Network > Bluetooth. Check Bluetooth to turn it on.

You must pair your Tablet PC with a device before you can connect to it. Once you pair your Tablet PC with a device, they stay paired unless you unpair them.

Your Tablet PC scans for and displays the IDs of all available Bluetooth devices in range. If the device you want to pair with isn't in the list, make it discoverable.

Connecting to a computer via USB

You can connect your Tablet PC to a computer with a USB cable, to transfer music, pictures, and other files between your Tablet PC's SD card and the computer.

3.4 Using the touch screen

◆ Touch-screen tips

➤ Touch

To act on items on the screen, such as application and settings icons, to type letters and symbols using the onscreen keyboard, or to press onscreen buttons, you simply touch them with your finger.

➤ Touch & hold

Touch & hold an item on the screen by touching it and not lifting your finger until an action

occurs. For example, to open a menu for customizing the Home screen, you touch an empty area on the Home screen until the menu opens.

➤ **Drag**

Touch & hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reach the target position.

➤ **Swipe or slide**

To swipe or slide, you quickly move your finger across the surface of the screen, without pausing when you first touch it (so you don't drag an item in stead). For example, you slide the screen up or down to scroll a list.

◆ **Lock screen**

When Screen lock in Security setting is enabled, press Power key to lock the handset. This helps to prevent accidental touching of keys and as well as power saving. When Sleep function in Display setting is enabled, after the handset device has been idle for preset period, the screen will be locked automatically to save power.

◆ **Unlock screen**

Press Power key to switch on the handset device. The lock screen appears. Touch and slide to any direction to unlock screen.

3.5 Using the onscreen keypad

You enter text using the onscreen keyboard. Some applications open the keyboard automatically. In others, you touch a text field where you want to enter text to open the keyboard.

◆ **To enter text**

Touch a text field, and the onscreen keyboard opens. Some applications open the keyboard automatically. In others, you touch a text field where you want to enter text to open the keyboard.

◆ **Touch the keys on the keyboard to type.**

The characters you've entered appear in the text field, with suggestions for the word you are typing below.

◆ **Use the Delete icon to erase characters to the left of the cursor.**

After finishing typing, touch Back icon to close the keyboard.

3.6 Dialing Calls

◆ **Dialing a call to a number in the contacts**

Touch the People icon on the Home screen or the People application icon. Swipe or slide upward/downward to pick out the target contact, touch the contact. Then you can touch the dial icon to originate a call.

◆ **Dialing a call to a number in call log**

Touch the History application on the application lists, then Swipe or slide upward/downward to pick out and touch the target contact. Then you can touch the dial icon to originate a call.

◆ **Answering incoming calls**

Touch the Answer icon to answer an incoming call.

Touch the Tablet PC icon to end the current conversation.

To reject an incoming call, Touch the Decline icon.

4.Using the Menus

4.1 Browser

You can use Browser to view web pages and search for information on the web.

When you open Browser, your home page opens. The web address (URL) of the current page is displayed at the top of the window.

To go to a web page or search the web

Touch the URL box at the top of the Browser screen. Enter the address (URL) of a web page. Or enter terms you want to search for. As you enter text, your web search engine makes suggestions of web pages and queries.

To refresh the current page

Touch Menu icon and an option interface appears, then you can touch **Refresh** to update the current web page.

To zoom in or out on a web page

Slide your finger slightly on the screen to reveal the Zoom control. Touch the plus or minus side of the Zoom control to zoom in or out.

To find text on a web page

Touch Menu icon and touch menu icon > Find on page. Enter the text you're looking for. As you type, the first word with matching characters is highlighted on the screen, and subsequent matches are boxed. Touch the up or down arrow to scroll to and highlight the previous or next matching word.

Copy text from web page

Use your finger to long press the text you want to copy. It will pop up some options, select the **Select text** option to select the text you want, and then touch the icon at the right top corner of the screen to copy or share the text.

Navigate among web page

You can open links on a web page, navigate back and forward, and review your browsing history, just as in any web browser.

To open a link: Touch a link to open it. Links that you touch are highlighted in orange until the web page they refer to opens in the window.

To go back and forward among the pages you've opened: Press back key or touch menu icon > forward.

To view your Browser history: As you browse the web, Browser keeps track of the pages you visit, to help you find your way back later. Touch the icon which sits at the right of the URL box, then touch the bookmarks icon at the upper right corner, then touch History tab, and then you can view your browser history. Select Most visited tab and you can view a list of most visited web page.

Working with multiple browser windows

You can open up to several Browser windows at once and switch among them.

To switch Browser windows, touch the icon at the top right corner of the screen. Here, all your open windows are listed. You can select one of them as per your need.

To close a Browser window, touch the icon at the top right of the screen. Here, all your open

windows are listed. You can touch the close icon at the right side of each open window to close it.

Downloading files

You can download files and even applications from web page. The files that you download are stored on your SD card.

To download a file, Different web page offer different mechanisms for downloading pictures, documents, applications, and other files. Touch & hold an image or a link to a file or to another web page. In the menu that opens, touch Save. If the file is in a format supported by an application on the Tablet PC, it is downloaded to your SD card. Touch menu icon and then touch download here, you can find a list of downloaded files. If you want to delete a file, just touch the indication box which situates at the left of the downloaded file, and an option box will pop out, here, you can select delete to delete an unnecessary file.

Working with bookmarks

Open a web page to bookmark, touch menu icon > Bookmarks/History, here, you can view bookmarks displayed in thumbnail style.

Touch & hold a bookmark, an option box will pop out. There, you can perform the following operations on bookmarks: Open, open in new tab, Edit bookmark, Add shortcut to Home, Share link, copy link URL, Delete bookmark and set the current bookmark as homepage.

4.2 Calculator

You can use this Calculator to solve simple arithmetic problems or use its advanced operators to solve more complex equations.

Enter numbers and arithmetic operators on the basic screen; Drag the basic screen to the left to open the advanced screen; Touch Clear to delete the last number or operator you entered. Touch & hold Clear to delete everything in the display.

In the calculator screen, you can touch menu icon ccess advanced panel.

4.3 Calendar

You can open Calendar to view events you've created.

Touch the Calendar icon in the main menu interface. Events from each account you've added to your Tablet PC and configured to synchronize calendars are displayed in Calendar.

Creating an event

You can use Calendar on your Tablet PC to create events. In any calendar view, touch menu icon touch new event to open an event details screen for a new event.

Enter a name, time, and optional additional details about the event. You can touch "Add reminder" to add more reminders. In the Guests field, you can enter the email addresses of everyone you want to invite to the event. Separate multiple addresses with commas (,). If the people to whom you send invitations use Google Calendar, they'll receive an invitation in Calendar and by

email. Touch Done at the top of the Event detail. The event is added to your calendar.

Synchronizing and displaying calendars

When you add a Google Account to your Tablet PC that includes a calendar service, and you configure that account to synchronize calendar events to the Tablet PC, the events from that calendar are added and kept up to date in Calendar on the Tablet PC.

In calendar screen, touch menu icon and touch Calendars to display > Calendars, here, you can set whether calendars are stored on the Tablet PC or visible. The Calendars screen displays all the calendars you've added or subscribed to for each account that is configured to synchronize events to your Tablet PC, organized by account. Touch the name of an account to show or hide its calendars on your Tablet PC. An icon to the right of each calendar indicates whether its events are synchronized in the Tablet PC and whether they are visible in Calendar.

Change Calendar settings

You can change the following settings for how Calendar displays event and how it notifies you of upcoming events. Open a Calendar view, touch menu icon and touch settings.

4.4 Camera

Touch the Camera icon in the main menu interface or on the home screen, camera opens in Landscape mode, ready to take a picture. In this mode, you can touch the "Camera" icon to take a photo, Drag the "Video" to the right, you can switch to the Video mode.

Note: you can also touch the upper right icon to switch sub camera

4.5 Clock

Touch the Clock icon on the Home screen or in the main menu interface. Clock opens with the date and time displayed on your Home screen wallpaper.

You can set an alarm by modifying an existing alarm or by adding a new one.

Note: Alarms that are set are underlined.

4.6 Downloads

Through this function, you can view a list of files and applications which you downloaded from the web page.

4.7 Email

You use the Email application to read and send email.

Touch email icon to access it. If the Email account has not been set up, you can set up an Email account in a few steps.

◆ Account setup

Enter an Email address and the account's password.

◆ Account settings

- Set in box checking frequency.
- Set Send email from this account by default.
- Set Notify me when email arrives.

-
- Set Synchronize contacts, calendar or Email from this account.
 - Set Automatically download attachments when connected to WI-FI.

◆ **Compose and sending Email**

To compose and send an Email:

1. Touch the create icon to compose a new Email.
2. Enter Email address(es) for intended recipient(s).
3. Touch Menu → Attach file to attach a file.
4. Touch Menu → Add Cc/Bcc to add copy or blind copy this Email to other contacts.
5. After completing the Email, Touch send icon to send the Email. Touch folder icon to check the account status. For each Email account there are five default folders, i.e., In box, Drafts, Outbox, Send and Trash folders. To view sent Emails, open Sent folder and tap refresh icon.

4.8File Explorer

The Tablet PC supports the SD card. You can use the File Explorer to conveniently manage various directories and files on the SD card.

4.9FlashLight

This is a flashlight function, You can open or closed flashlight in the main menu.

4.10FM Radio

Please plug in the compatible earTablet PC to the device and then turn on the radio. The earTablet PC cable can be used as FM Antenna. Please adjust appropriate volume when listening to the radio. Continue to use higher volume is harmful for your ear.

4.11Gallery

Pictures taken by camera or stored in SD card can be scanned through this function.

4.12Gmail

You can log in or create new G-mail through this function.

4.13Google

You can search and view something in your Tablet PC or web page after connect with internet through this function.

4.14Google Settings

You can set parameters of Google through this function.

4.15History

You can see the recent call records

4.16Maps

You can use Google maps through this function.

4.17Messages

You can use Messages to exchange text messages (SMS) and multimedia messages (MMS) with your friends on their mobile Tablet PCs.

◆ **Sending a message**

1. Touch message icon on the home screen and touch edit new message icon to edit a new

message.

2. Enter a contact's name or call number in the recipient field. As the information is entered, all matching contacts appear. Touch a suggested contact or multiple contacts as message recipient(s).
3. Touch Enter message to compose your message. Touch menu to select a insert quick text.

message.

◆ **Message template**

Message templates can save your time in editing message with similar format. To create a message template:

1. Touch message icon on the home screen and touch menu icon to enter settings.
2. Touch Templates and touch New to add new quick text.

4.18 Play Music

Music plays audio files that are stored on your Tablet PC's SD card, so before you open Music, you must copy audio files from your computer onto the SD card. Music supports a wide variety of audio file formats, so it can play music that you purchase from online stores, music that you copy from your CD collection, and so on.

To open Play Music and view your music library

Touch the Music icon in the main menu interface or on the Home screen.

When you copy music to your SD card, Music searches the card for music files and builds a catalog of your music, based on information about each file that is stored in the file itself. This can take from a few seconds to several minutes, depending on how many files you have copied onto the SD card. When the catalog is complete, the Music library screen opens, with tabs that you can touch to view your music library organized by Artists, Albums, Songs or Play lists.

Note: If the Tablet PC power off owing to low battery while you were downloading music via USB cable, the Tablet PC would prompt 'SD card error' when you power on the Tablet PC. Repower on the Tablet PC for about 5 times, the same prompt would occur. Under this circumstance, you should repower on the Tablet PC until it prompts 'SD card error. Format?'. Please select format to format your SD card to ensure the Tablet PC runs properly.

Any sudden suspend during downloading music via USB cable may result in great damage to your SD card.

music

You can listen to music by using the Tablet PC's built-in speaker, through a wired headset, or through a wireless Bluetooth stereo headset.

Touch a song in your library to listen to it. The Playback screen opens and the song you touched starts to play. The Playback screen contains several icons that you can touch to control the playback of songs. On the right-top of playback screen, you can find three function icons. You can touch them to open the current play list, shuffle the current play list or repeat the current play list / repeat the current track (touch twice). Three function icons which situates just above the process bar can be used to control the playing process of the music application. Their functions can be defined as the following: switch to last song (touch), play/pause and switch to next song (touch)

To delete a song from the SD card

You can delete music from the storage card. Touch & hold a song in a library list. In the menu that opens, touch Delete.

4.19 People

In the contacts screen, touch menu icon and you can perform the following operations:

Delete contacts: Select this function, then you can mark the target contacts. To delete all contacts, you just need to touch **Select all** at the top of contacts screen. Last, touch **Done** and **confirm** to delete contacts.

Contacts to display: you can select the contacts on different group to display.

Accounts: you can sync with your account.

Settings: you can set the display options in this interface.

4.21 Play Store

When you first open Play store, a guide will display to guide you to use this function.

4.22 Search

The Search function enables you to open a search box for searching your Tablet PC and the web.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Specific Absorption Rate (SAR) information

This device meets the government's requirements for FCC exposure limits set forth for an uncontrolled environment. This device was tested for typical body-worn operations with the back of the Tablet PC kept 0 mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0 mm separation distance between the user's body and the back of the Tablet PC. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
