Please keep your device properly. We are not responsible for any loss caused by wrong operation of software/hardware or repairing or any other reasons. We are not responsible for any loss of any third party claims.

This manual has been carefully checked by professional engineers, please understand for any inevitable emissions.

**FCC Statement**

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:  
(1) This device may not cause harmful interference.  
(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the manufacturer void the user's authority to operate the equipment.

**Attention:**

Please do not look directly into the lens when projecting. Prolonged exposure to the strong light may harm your eyes. You should use the projector under the supervision of adults.

Note: This equipment has been tested and found to comply with the limits for a class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment uses radio waves, and radio waves can interfere with radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to a television or other television receiver, which can be determined by turning the equipment off and on the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiver.
  - Plug the equipment into an outlet on a circuit different from that to which the receiver is connected.
  - Consult the dealer or an experienced radio/TV technician for help.
- The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with a minimum distance of 40cm between the radiator and your body.
